Foreword

This document was compiled as a guideline to be used in coding ISEE assignment forms and contains terms and their definitions found in the handbooks of standard educational terminology constituting the *State Educational Record and Report Series* and other definitions found on various websites. It is a quick reference of terms and definitions, thus promoting an achievement of comparability and compatibility of recorded and reported educational information.

Subject Fields and Assignment Code Descriptions

The basic course code consists of a 5-digit number, with the first 2 digits corresponding to the subject area to which that course belongs. These 2 digits provide the user with a logical link to the subject fields that are used to further describe the course. An alphabetic ordering by subject is used in assigning the subject area codes (e.g., Elementary = 00, English Language and Literature = 01, Mathematics = 02, Life and Physical Sciences =03).

The last 3 digits of the basic assignment code correspond to the order of courses as described within the subject area. Although rigorous procedures are not used to order courses within the subject areas, courses are grouped according to topics and skills covered within the courses.

Some numbers are used consistently to denote certain characteristics of the courses. Assignment codes have been grouped into the following subject fields and should be taught by certified staff holding the proper teaching credentials.

Assignment codes for grades 6, 7 and 8 are also located in these subject matter areas but "5" has been added to the 1st digit of the subject field (e.g. English Language and Literature for grades 9-12 = 01; English Language and Literature for grades 6-8 = 51).

The self-contained elementary and special education assignment codes for grades 1-6 are no longer available. All teachers of elementary students need to be reported using specific content assignment codes so that students are correctly associated with the applicable course assignments. The 00005 Exploratory (Gr. K-6) assignment code should be used for all non-core content elementary assignments.

Only six (6) digit assignment codes receive Professional Technical Education (PTE) secondary added cost funding. The PTE Assignment Credential Manual can be viewed at the following web location: http://www.sde.idaho.gov/site/isee/

Although every attempt has been made to accommodate the many different types of courses taught throughout the state, you may not see the exact title and description you are seeking. Please choose the assignment code that most closely aligns to what is actually being taught.

00081 Special Ed - Elementary Instruction (Gr. K) The differentialized curriculum for handicapped pupils reflects an increasing awareness of the individual needs of children. Many children cannot benefit from basic education without special education classes. Handicapped children present learning difficulties, sensory and motor impairments, which require careful study for successful adaptation of instruction. Teachers of exceptional children integrate professional information from psychology, education and medicine for instruction and therapeutic services. Consequently, special education as applied for each type of handicapped child has developed some distinctive techniques and materials that distinguish it from regular classroom instruction.	7019 Early Child Spec PreK/3 7029 Generalist K/12 7031 Serious/Emotion K/12 7032 Sev Retardation K/12 7033 Multiple Impair K/12 7034 Physical Impair K/12 7083 Early Child Spec Birth/3	N/A

02153 Technical Math (Gr. 9-12) Technical Math courses extend students' proficiency in mathematics, and often apply these skills to technical and/or industrial situations and problems. Technical Math topics may include but are not limited to rational numbers, systems of measurements, tolerances, numerical languages, geometry, algebra, statistics, and using tables, graphs, charts, and other data displays. Technology is integrated as appropriate.	7300 Mathematics 6/12 7320 Basic Mathematics 6/12 8300 Mathematics 6/9 8320 Basic Math 6/9	***Must be highly qualified in Mathematics*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***
02154 Business Math (Gr. 9-12) Course reinforces general math skills for students who have previously attained them, emphasizes speed and accuracy in computations, may extend the general math skills to cover additional math concepts, and uses these skills in a variety of business applications. Business Math reinforces general math topics such as arithmetic using rational numbers, measurement, and basic statistics. In addition, these courses apply these skills to business problems and situations; applications might include wages, hourly rates, payroll deductions, sales, receipts, accounts payable and receivable, financial reports, discounts, and interest. Enhancement topics: ratio and proportion, exponents, formulas, and simple equations.	7300 Mathematics 6/12 7320 Basic Math 6/12 8300 Mathematics 6/9 8320 Basic Math 6/9	***Must be highly qualified in Mathematics*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***

02157 Consumer Mathematics/Personal Finance (Gr. 9-12) Consumer Math courses reinforce general math topics (such as arithmetic using rational numbers, measurement, ratio and proportion, and basic statistics) and apply these skills to consumer problems and situations. Applications typically include budgeting, taxation, credit, banking services, insurance, buying and selling products and services, home and/or car ownership and rental, managing personal income, and investment.	7300 Mathematics 6/12 7320 Basic Mathematics 6/12 8300 Mathematics 6/9 8320 Basic Math 6/9	***Must be highly qualified in Mathematics*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***
02201 Probability and Statistics (Gr. 9-12) Course provides an introduction to probability and statistics and reinforce general math skills for students who have previously mastered general mathematics topics. The courses include the study of basic probability and statistics topics: discrete probability theory, sample space, frequency tables, graphing data, and measures of central tendency, and may use these skills in a variety of real world applications. Enhancement topics: normal curve distribution and measures of variability.	7300 Mathematics 6/12 8300 Mathematics 6/9	***Must be highly qualified in Mathematics*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***
02203 AP Statistics (Gr. 11-12) AP Statistics introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are exposed to four broad conceptual themes: exploring data (observing patterns and departures from patterns), planning a study (deciding what and how to measure), anticipating patterns (producing models using probability theory and simulation), and statistical inference (confirming models). This course is intended to prepare students for the optional Advanced Placement Exam in this subject and should follow the published College Board guidelines.	7300 Mathematics 6/12	***Must be highly qualified in Mathematics*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***

03056 AP Biology (Gr. 11-12) Typically taken after a year of high school biology and chemistry and designed to parallel college level introductory biology courses, AP Biology courses stress basic facts and their synthesis into major biological concepts and themes. Three general areas are covered: molecules and cells (including biological chemistry and energy transformation); genetics and evolution; and organisms and populations (i.e., taxonomy, plants, animals, and ecology). AP Biology courses include college level laboratory experiments. This course is intended to prepare students for the optional Advanced Placement Exam in this subject and should follow the published College Board guidelines.	7420 Natural Science 6/12 7421 Biological Science 6/12	***Must be highly qualified in Science*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***
03057 IB Biology (Gr. 11-12) IB Biology courses prepare students to take the International Baccalaureate Biology exams at either the Subsidiary or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Biology promotes understanding of the facts, principles, and concepts underlying the biological field; critical analysis, evaluation, and generation of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of biology and scientific advances in biology upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes study of living organisms from the cellular level through functioning entities within the biosphere. Laboratory experimentation is an essential component of these courses.	7420 Natural Science 6/12 7421 Biological Science 6/12	***Must be highly qualified in Science*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***

03106 AP Chemistry (Gr. 11-12) Course designed to parallel college level general chemistry courses, AP Chemistry courses usually follow high school chemistry and second-year algebra. AP Chemistry courses require more time, effort, and formulation from students than regular secondary chemistry courses. Topics may include atomic theory and structure; chemical bonding; nuclear chemistry; states of matter; and reactions (stoichiometry, equilibrium, kinetics, and thermodynamics). AP Chemistry laboratories are equivalent to those of typical college courses. This course is intended to prepare students for the optional Advanced Placement Exam in this subject and should follow the published College Board guidelines.	7420 Natural Science 6/12 7430 Physical Science 6/12 7440 Chemistry 6/12	***Must be highly qualified in Science*** ****Click here to access the various ways to demonstrate highly qualified status according to the federal definition***

63001 Exploring Manufacturing Operations (Gr. 6-8) Exploration of Manufacturing Occupations courses introduce and expose students to the career opportunities pertaining to the processing and production of goods. Course topics vary and may include (but are not limited to) systems pertinent to the manufacturing process, properties of various raw materials, and the methods used to transform materials into consumer products. Course activities depend upon the careers being explored; course topics may include entrepreneurship, labor laws, and customer service.	7010 All Subjects K/8 7011 All Subjects 1/8 7981 Technology Ed 6/12	N/A
13002 Manufacturing - Comprehensive (Gr. 9-12) Manufacturing–Comprehensive courses introduce students to the various methods used to process and transform materials. Processing techniques covered may include casting, forming, separating, assembling, and finishing. The courses may also include an overview of management techniques in planning, organizing, and controlling various segments of the manufacturing process, including design, engineering, production, and marketing. Students may organize a company and create products for sale.	7981 Technology Ed 6/12	N/A

16052 Restaurant, Food, and Beverage Services – Comprehensive (Gr. 9-12) Restaurant, Food, and Beverage Services–Comprehensive courses provide students with knowledge and skills related to commercial and institutional food service establishments. Course topics range widely, but usually include sanitation and safety procedures, nutrition and dietary guidelines, food preparation (and quantity food production), and meal planning and presentation. Restaurant, Food, and Beverage Service courses may include both "back-of-the-house" and "front-of-the-house" experiences, and may therefore also cover reservation systems, customer service, and restaurant/business management.	7971 Family Cons Sci 6/12	N/A
16054 Nutritional Science (Gr. 9-12) Nutritional Science courses provide students with knowledge and skills about food preparation and/or production, with a strong emphasis on nutrition, balanced diets, and satisfying special dietary needs. Topics typically include assessing nutrient content, the science of food and nutrition, physiology and utilization of nutrients. Course content may also cover additives, contaminants, food-borne illnesses, and food technology.	7971 Family Cons Sci 6/12	N/A

17002 Construction (Gr. 9-12) Construction courses provide students with basic knowledge and skills required for construction of commercial, residential, and institutional structures. These courses provide experiences and information (typically including career opportunities and training requirements) regarding construction-related occupations such as carpentry, cabinetmaking, bricklaying, electrical trades, plumbing, concrete masonry, and so on. Students engage in activities such as reading blueprints, preparing building sites, starting foundations, erecting structures, installing utilities, finishing surfaces, and providing maintenance.	7981 Technology Ed 6/12	N/A
17007 Cabinetmaking (Gr. 9-12) Cabinetmaking courses provide students with experience in constructing cases, cabinets, counters, and other interior woodwork. Students learn to distinguish between various types of furniture construction and their appropriate applications, and how to use various woodworking machines and power tools for cutting and shaping wood. Cabinetmaking courses cover the different methods of joining pieces of wood, how to use mechanical fasteners, and how to attach hardware. Initial topics may resemble those taught in Woodworking courses; more advanced topics may include how to install plastic laminates on surfaces and how to apply spray finishes.	7981 Technology Ed 6/12	N/A
17008 Masonry (Gr. 9-12) Masonry courses enable students to learn to construct interior and exterior walls, columns, doorways, window openings, fireplaces, chimneys, and foundations from brick and concrete block. Along with other activities, students may mix and spread cement and mortar, read blueprints and plans, and estimate materials needed for a project. Other topics may also include how to layout buildings on footings and how to establish grades using a surveying transit.	7981 Technology Ed 6/12	N/A
17009 Building Maintenance (Gr. 9-12) Building Maintenance courses train students to maintain commercial, industrial, and residential buildings and homes. Instruction is provided in the basic maintenance and repair of air conditioning, heating, plumbing, electrical, and other mechanical systems. Topics covered may include identifying and using hand and power tools safely; installing and repairing floor coverings, walls, and ceilings; installing and repairing doors, windows, screens, and cabinets; applying finishes to prepared surfaces; and repairing roofs, masonry, plumbing, and electrical systems.	7981 Technology Ed 6/12	N/A

17106 Electronics - Comprehensive (Gr. 9-12) Electronics–Comprehensive courses provide a survey of the theory, terminology, equipment, and practical experience in the skills needed for careers in the electronic field as well as typically cover the theory of electricity. Course topics may include AC, DC, analog, and integrated circuitry and solid state and digital devices, amplifiers, and semiconductors. Skills covered may involve the repair, maintenance, and building of electronic equipment such as radios, television sets, and industrial equipment.	7981 Technology Ed 6/12	N/A
17108 Electricity/Electronics (Gr. 9-12) General courses teach fundamental concepts of electricity and electronics, including safety procedures, and may introduce students to the available occupations in electrical and electronic industries. Topics covered typically include components of circuits; reading schematics and diagrams; electricity and electronics as sources of energy; signal transmission; and using equipment common to these occupations, such as ammeters, voltmeters, capacitor checkers, transistor testers, signal generators, and ohmmeters.	7981 Technology Ed 6/12	N/A
17996 Architecture and Construction - Special Education (Gr. 9-12) Designed to meet the needs of students with Individual Education Plans (IEPs), Architecture and Construction - Special Education courses provide students with experience in a field related to architecture or construction. Goals are typically set cooperatively by the student, teacher, and employer (although students are not necessarily paid). These courses may include classroom activities as well, involving further study of the field or discussion regarding experiences that students encounter in the workplace.	7029 Generalist K/12 7031 Serious/Emotion K/12 7032 Sev Retardation K/12 7033 Multiple Impair K/12 7034 Physical Impair K/12	N/A

18052 Horticulture (Gr. 9-12) General Horticulture courses expose students to the art and science of growing plants, shrubs, trees, flowers, fruits, and vegetables. In doing so, they cover a wide variety of topics, including greenhouse and nursery operations, soils and media mixtures, fruit and vegetable production, turf/golf course management, interior and exterior landscaping, irrigation systems, weed and pest control, and floral design.	7092 Marketing Tech Ed 6/12 7420 Natural Science 6/12 7421 Biological Science 6/12 7921 Ag Science & Tech 6/12	N/A
18101 Animal Production/Science (Gr. 9-12) Animal Production/Science courses impart information about the care and management of domestic and farm animals. These courses may cover animal nutrition, health, behavior, selection, reproduction, anatomy and physiology, facilities, product processing, and marketing. Students may study a particular species (swine, cattle, horses, fowl, sheep, and so on), or they may learn how to care for and maintain livestock as a more inclusive study.	7921 Ag Sci & Tech 6/12	N/A
18201 Agribusiness Management (Gr. 9-12) Agribusiness Management courses provide students with the information and skills necessary for success in agribusiness and in operating entrepreneurial ventures in the agricultural industry. These courses may cover topics such as economic principles, budgeting, risk management, finance, business law, marketing and promotion strategies, insurance, and resource management. Other possible topics include developing a business plan, employee/employer relations, problem-solving and decision-making, commodities, and building leadership skills. These courses may also incorporate a survey of the careers within the agricultural industry.	7921 Ag Sci & Tech 6/12	N/A
18203 Agricultural Leadership (Gr. 9-12) Agricultural Leadership courses help students develop leadership skills with a focus on opportunities in the food, fiber, and natural resources industries. Topics may include but are not limited to human relationships and effective communication, decision-making and problem-solving, leadership qualities and styles, and ensuring successful completion of group activities.	7921 Ag Sci & Tech 6/12	N/A

18308 Agricultural Biotechnology (Gr. 9-12) Agricultural Biotechnology courses apply biological principles and understanding to plant and animal science in order to produce or refine agricultural products. Course topics typically include but are not limited to microbiology, genetics, growth and reproduction, structural basis of function in living systems, chemistry of living systems, quantitative problem-solving, and data acquisition and display. These courses also often cover the ethics of biotechnology.	7921 Ag Sci & Tech 6/12	N/A
18401 Agriculture Mechanics/Equipment/Structures (Gr. 9-12) Agriculture Mechanics/Equipment/Structures courses provide students with the skills and knowledge that are specifically applicable to the tools and equipment used in the agricultural industry. While learning to apply basic industrial knowledge and skills (engine mechanics, power systems, welding, and carpentry, among others), students may explore a broad range of topics, including the operation, mechanics, and care of farm tools and machines; the construction and repair of structures integral to farm operations; a study of electricity and power principles; and safety procedures.	7921 Ag Sci & Tech 6/12	N/A
18404 Agriculture Welding (Gr. 9-12) Agriculture Welding courses provide students with the skills and knowledge that are specifically applicable to the tools and equipment used in the agricultural industry. In learning to apply basic industrial knowledge and skills (engines, power, welding, and carpentry, among others), students may explore a broad range of topics, including the operation, mechanics, and care of farm tools and machines; the construction and repair of structures integral to farm operations; an introduction or review of electricity and power; and safety procedures.	7921 Ag Sci & Tech 6/12	N/A
18405 Particular Topics in Agricultural Mechanics and Construction (Gr. 9-12) These courses examine specific topics related to agricultural mechanics and construction, such as specific vehicles or structures, rather than provide a general study of mechanics and construction techniques.	7921 Ag Sci & Tech 6/12	N/A
18505 Particular Topics in Natural Resources/Wildlife Mgt (Gr. 9-12) These courses examine specific topics related to natural resources, such as urban forestry or hunter education, rather than provide a general study of natural resource principles and topics.	7921 Ag Sci & Tech 6/12	N/A

21102 Drafting - General (Gr. 9-12) Drafting–General courses, usually offered as a sequence of courses, introduce students to the technical craft of drawing illustrations to represent and/or analyze design specifications and then refine the skills necessary for this craft. Drafting–General courses use exercises from a variety of applications to provide students with the knowledge and experience to develop the ability to perform freehand sketching, lettering, geometric construction, and multi view projections and to produce various types of drawings (working, detail, assembly, schematic, perspective, and so on). Computer-aided drafting (CAD) systems (if available) are typically introduced and used to fulfill course objectives.	7981 Technology Ed 6/12	N/A
21103 Drafting - Architectural (Gr. 9-12) Drafting–Architectural courses introduce students to and help them refine the technical craft of drawing illustrations to represent and/or analyze design specifications, using examples drawn from architectural applications. These courses are intended to help students develop general drafting skills, but place a particular emphasis on interior and exterior residential (and light commercial) design, site orientation, floor plans, electrical plans, design sketches, and presentation drawings. In addition, students may prepare scale models.	7981 Technology Ed 6/12	N/A
21106 Drafting - Technical/Mechanical (Gr. 9-12) Drafting–Technical/Mechanical courses introduce students to and help them refine the technical craft of drawing illustrations to represent and/or analyze design specifications, using examples drawn from industrial applications. These courses are intended to help students develop general drafting skills, but place a particular emphasis on sectioning, auxiliary views, revolutions, and surface development. In these courses, students may learn basic machining and fabrication processes as they draw schematic diagrams featuring cams, gears, linkages, levers, pulleys, and so on.	7981 Technology Ed 6/12	N/A
21107 CAD Design and Software (Gr. 9-12) Frequently offered as an intermediary step to more advanced drafting courses (or as a concurrent course), CAD Design and Software courses introduce students to the computer-aided drafting systems available in the industry.	7981 Technology Ed 6/12	N/A

72001 Standardized Test Preparation (Gr. 6-8) **22001 Standardized Test Preparation** (Gr. 9-12) Standardized Test Preparation courses help prepare students for national standardized tests such as the PSAT, SAT, and ACT. In particular, these courses assist students in developing and/or expanding their vocabulary, test-taking, and reasoning skills through study, lecture, and practice drills. Course topics may include vocabulary review; root words, prefixes, and suffixes; mathematical concepts, logic, and rules; and general problem-solving and test-taking strategies.	Valid Idaho Certificate	N/A
72002 State Test Preparation (Gr. 6-8) **22002 State Test Preparation** (Gr. 9-12) State Test Preparation courses prepare students for particular state tests required for graduation. These courses may cover specific content areas (such as citizenship, mathematics, language arts, and so on) according to individual student needs, or they may provide a more general course of study, similar to the Standardized Test Preparation course described above.	Valid Idaho Certificate	N/A
72003 Study Skills (Gr. 6-8) **22003 Study Skills** (Gr. 9-12) Study Skills courses prepare students for success in middle and high school and/or for postsecondary education. Course topics may vary according to the students involved, but typically include reading improvement skills, such as scanning, note-taking, and outlining; library and research skills; listening and note-taking; vocabulary skills; and test-taking skills. The courses may also include exercises designed to generate organized, logical thinking and writing.	Valid Idaho Certificate	N/A

72004 Dropout Prevention (Gr. 6-8) **22004 Dropout Prevention** (Gr. 9-12) Dropout Prevention Program courses vary widely, but typically are targeted at students who have been identified as being at risk of dropping out of or failing in school. Course content may include study skills and individual tutorials; job preparation, readiness, application, or interview skills; communication skills; personal assessment and awareness activities; speaker presentations; and small group seminars.	Valid Idaho Certificate	N/A
72005 Tutorial (Gr. 6-8) **22005 Tutorial** (Gr. 9-12) Tutorial courses provide students with the assistance they need to successfully complete their coursework. Students may receive help in one or several subjects.	Valid Idaho Certificate	N/A
72006 Study Hall (Gr. 6-8) **22006 Study Hall** (Gr. 9-12) Study Hall courses provide students with the opportunity and time to complete classroom assignments or school projects. Students typically work on their own, without the help of a tutor; however, they are supervised and usually remain in the classroom.	Valid Idaho Certificate	N/A
72051 Office/Library/Classroom Aide (Gr. 6-8) **22051 Office/Library/Classroom Aide** (Gr. 9-12) Courses typically provide students with the opportunity to work in a school office, library or classroom developing skills related to clerical office, library or classroom work. Duties may include typing, filing, record-keeping, receiving visitors, answering the telephone, among others. These courses emphasize appropriate work attitudes, human relations, and proper school environment procedures.	Valid Idaho Certificate	N/A
22054 Tutoring Practicum (Gr. 9-12) Tutoring Practicum courses provide students with the opportunity to offer tutorial assistance to their peers or to younger students. After an initial training period during which students learn how to work with other students and how to make use of the available resources (e.g., staff, written material, audiovisual aids, and so on), students engage in tutoring and assisting others who need or request help. 22101 Leadership (Gr. 9-12) Leadership courses are designed to strengthen students' personal and group leadership skills. Typically intended for students involved in extracurricular activities (especially as officers of organizations or student governing bodies), these courses may cover such topics as public speaking, effective communication, human relations, parliamentary law and procedures, organization and management, and group dynamics.	Valid Idaho Certificate	N/A
00102 Advisory/School Orientation (Gr. 5-6) **72102 Advisory/School Orientation** (Gr. 7-8) **22102 Advisory/School Orientation** (Gr. 9-12) School Orientation courses provide students with an introduction to the culture of their school so that they understand staff expectations and the school's structure and conventions. These courses may vary widely according to the philosophy, aims, and methods of each school.	Valid Idaho Certificate	N/A
22103 School Governance (Gr. 9-12) School Governance courses convene students as an entire student body to discuss common concerns, organize groups for action, make decisions, and solve school-related problems. Because of the nature of these courses, they are typically offered at private, alternative, or experimental schools.	Valid Idaho Certificate	N/A
22104 Community Service (Gr. 9-12) Community Service courses provide students with the opportunity to volunteer their time, energy, and talents to serve a community project or organization. These courses are usually (but not always) conducted with a seminar component, so that students can use their volunteer experiences to learn how to solve problems, make decisions, and communicate effectively.	Valid Idaho Certificate	N/A
22106 Seminar/Senior Projects (Gr. 11-12) Seminar courses vary widely, but typically offer a small peer group the opportunity to investigate areas of interest. Course objectives may include improvement of research and investigatory skills, presentation skills, interpersonal skills, group process skills, and problem-solving and critical-thinking skills.
