On our way

It was about seven years ago, when my family went to Disney land. I was about three years old. I was scared and happy at the same time. The first thing we did was pack all the things we needed. Next we all loaded the car to drive to the air port. As a little kid it seemed like we drove forever.

When we finally got to the airport we had to wait a while because we had come to early. Then when it was time we all got on the plane. I was really nice inside. We found some seats and sat down. When we started to move, my mom told me to look out the window everthing was get really small as small as an ant.

We traveled about a day. Then when we landed, their were lots of strange people. I held on to my sisters hand as tight as I could. There was no way I was getting stolen. Next we saw a little elf, he asked us if we were the family. My dad said yes we are. Elf said then follow me.

Then we all started to follow him down a cerry path. I was as scared of him as my grandpa's dogs. The little guy took us to a little house, in it were two rooms a living room and a kitchen. My mom, dad, sister, and me got rooms and my brothers got the pull out bed. There were little frogs under our beds I hated that a lot.

The next day we went on as many rides as we could. But I can't remember the names. Every time we went some where and came back there were presents for all of us. We got things like stuffed dogs and things like that.

It was about the third day. We all went swimming. There were these frogs

that shot water out of of there mouths. I didn't really like that. It wasn't very fun because I didn't know how to swim.

That was our last day. We went home that night. I had lots of fun even if I was scared part of the time. When we got home we all helped unpack and put things away. After that we all got our pjson and phyed a game. When we were tired we went to bed. That was the best three days I have ever had. And I can't wait to go again.
