FINAL

What I Learn From the story was when they was in the ocean and they don't have Food only water and breath, and they have to go to other state. they was in a bout Driving to the others States.
I think is sad, becaus they wasent with No Family. with No Food. And Drive alot miles in a litle bout.
The incident affected me. because I don't want to be like them with No Food and I don't want to be in the ocean in a litle bout with a lot people and Drive lot miles to others states.
The thinks I learn was to No life you Family only if you Now is Not going to happend somting to you and you need to see were you going with who and see if you going to have Food and if you think you think you going to be oright.
And I learn to leasen other people and bolive what they say, because if the older in you they now more then you, thas why you have to see who is you friends.
And I learn you have to be honesty with other people and you Self.

And I learn before you do somthing you have to thik If you do Somthing what is going to happend because if you don't think what is going to happend you don't now. becaus you don't thing and you have to think in other people before you do thinks.
