Name:_____ Partner: _____

Point of View:_____ Partner's Point of view: _____

Step three: Build a timeline

Part of your project is to show a timeline of the events that led up to the Civil War. Work with your partner, and use this table to complete the timeline to show the events that you will include in your final project. Each person needs to complete the chart. Discuss the events with your partner, then highlight the six events that you agree are the most important events. You will include these in your final timeline. Hint: Use the timeline in your social studies notebook to help you.

Date	Event	Why was this event significant?
