Snowboarding is the thing I'm really good at. I have been snowboarding for three years I can do almost all of the grab tricks; I can also do a 180° turn in the air. That is why I think I'm good at snow boarding.

Snowboarding takes a lot of talent. One of the tallents is you have to ~~have~~ be able to keep your ballance otherwise you would fall a lot and you wouldnt have fun. Another tallent is you have to have a lot of patience if you dont you will not like snowboarding because you have to wait a lot. The last talent is you have to know what hills and jumps you can or cannot ride on or jump. Those are some of the tallents needed for snow boarding.

The gear you have for snow boarding is also really important to be good at snowboarding. The snowboard must be your size, if its not your size then you will have a hard time controlling your board. If the bindings are to small then the boots wont buckle ing, if the bindings are to big then the boots would be loose and you will not be able to control your board. The last part of the gear is the clothes, they have to fit perfectly or they will not be comfortable. This is why the gear has to fit really good.

This is what it takes to be a snowbourder.

What I Am Good At

Whenever I am at home, school, or my friend's house and there is nothing to do I will draw manga. If I may say so, I believe that I am at least fairly good at it. I enjoy this because I can picture manga better than any other type of drawing. It, in a way, is a reflection of my soul.

When you draw manga you can have any attitude at all. In fact, it is best to have a full and expressive attitude, so your picture will be filled with emotion. Instead of letting your feelings out by yelling or crying, you can just draw what you are feeling. Your pictures come to life if there is plenty of emotion.

While drawing manga you should make sure to be creative or your pictures will be dull and listless. It will be the same as anyone elses. You must also have patience. Things may not always turn out the way you want them to, so you must keep trying.

If you want to be a worthy manga artist, you have to have some specific talents and skills. You must be artistic, and you must be explicit. These are the two main things that are required. If you have these, you will be a marvelous manga artist.

PS2760

Drawing manga is an excellent way to escape from the troubles of the world. Or perhaps you could just do it to write down your past inconveniences. Being a wonderful manga artist opens up many new doorways, such as the ones in carrers. So when you get some free time try drawing manga. It can be a very fulfilling activity. And that's why I enjoy it.

I would say I'm very talented at being a class clown. Sometimes I get out of hand. But I'm very liked by others. Yet there are people who don't like me. I've been known to steal the thunder. Theres been days I'm just social! Theres days I'm all about work too. I've had my ups and my downs throug the years. But I've learn from my mistakes. Even now I'm still learning from my mistakes. I'm even the home clown. My dad always tells me put the clown in the closet. I probably got the class clown trait from my grandpa. I've heard from every principal I'll be a leader some day.
