Cengage	Managing Your Personal Finances	Ryan	2016	9-12	9781305076815	Comprehensive Personal and Family Finance	
	Notes: The text meets the standards of an entry level financial course. The student activity guide provides additional activities for accessing understanding of each chapter. The materials include activities, support, and development of leadership skills.						
	Key Features: While focusing on the student's role as citizen, student, family member, consumer, and active participant in the business world, MANAGING YOUR PERSONAL FINANCES 7E informs students of their various financial responsibilities. This comprehensive text provides opportunities for self-awareness, expression, and satisfaction in a highly technical and competitive society. Students discover new ways to maximize their earning potential, develop strategies for managing their resources, explore skills for the wise use of credit, and gain insight into the different ways of investing money. Written specifically for high school students, special sections in each chapter hold student interest by focusing on current trends and issues consumers face in the marketplace. Updated Content: Information about social media, health care, online banking, and identity theft is updated and current. A profile of a real person at the end of each unit describes how he or she has applied the skills presented in this text to his or her own life. National Standards: Aligned with the Jump\$tart Coalition for Personal Financial Literacy's National Standards as well as National Business Education Association standards for Personal Finance. Real-World Connections: An abundance of real-life examples makes the information more relevant and interesting for students

	Notes: Chapters are not long, reading is relatively uncluttered. The information is thorough and highly detailed, including graphs, photos, boxes, etc. There are links to core activities. The text includes a glossary of vocabulary terms, "Feature Contents", and "Core Skills. It also has two appendices. One is for information on the NAEYC , and a second detailing developmental traits.						
	Key Features: <i>Working with Young Children</i> introduces students to the field of early childhood education. The text begins by helping students better understand young children and then progresses into developing guidance skills. Child development principles are applied to child care settings. Students also learn how to handle specific concerns related to infants, toddlers, school-age children, and children with special needs.

	Notes: The chapters are well organized, clear and concise. The chapters are well written and easy to follow. Chapters can be taught as whole concepts or broken into smaller parts. Vocabulary and learning objectives are clearly stated at the beginning of each chapter. There is a glossary of vocabulary words and terms, and an index at the end. The book also features a list of the special sections dispersed throughout the book- Case Study, Cultural Connections, Health Connections, and Safety Connections. The sections provide excellent opportunities for students to relate previous knowledge and make connections to other materials. The book tracks development by age group, rather than by type. For example, the physical, cognitive and social-emotional development are all together.						
Key Features: <i>Lifespan Development</i> is designed to help your students understand human growth and development across the lifespan. The contents of this text show that even though not all people are alike, they do go through similar stages of development. Young children							

	learn to walk, talk, spell, jump, and tell jokes. Teens learn to become more independent. Adults take on more responsibilities for themselves and others. Throughout the lifespan, people continue to develop and change physically, cognitively, socially, and emotionally. The text also includes strategies that promote lifespan health and wellness.

	Notes: The core standards are covered and the course covers the full health span. There is a teacher text along with study quizzes after each chapter/unit. Assessments are excellent. There are vocabulary building activities throughout the book. Math concepts are included. The text is easy to navigate through the lessons.						
	Key Features: <i>Essential Health</i> is the most up-to-date, skills-based text available for high school health and wellness classes. With its engaging writing and numerous supporting activities, this text presents the study of health and wellness as a dynamic discussion, relevant to students' lives. In addition to the standard topics, the text contains in-depth coverage of sleep, body image, and health across the lifespan. Content and skills are aligned to the <i>National Health Education Standards</i> .

	Notes: Meaningful information, FCCLA connections, core activities and resources for teachers are included in this course. Community resources and laws related to children and families will have to be supplemented.						
	Key Features: <i>Parents and Their Children</i> helps students learn the demands of parenting as well as its rewards. The text explores various family forms and functions, the cycle of family development, and how the parenting role changes through the lifespan as children grow. Conception, pregnancy, and prenatal development and care are discussed with an emphasis on abstinence to avoid unplanned pregnancies. Features throughout the text engage students in real-life parenting situations. College and career readiness activities are included.

	Notes: This is an excellent student text, however many components are still in progress. It is clear and easy to read, has FCCLA connections, integrated core activities, and career portfolio activities. Some chapters could be combined. The course is missing information on the clerical responsibilities in education. The instructor will need to supplement information on inventory recording, data analysis and collection, and other paperwork required as a teacher.						
	Key Features: <i>Teaching</i> helps students, the teachers of tomorrow, explore the world of education. Besides investigating teaching as a profession, students will develop an understanding of the different types of learners they will encounter in the classroom. This includes how humans develop physically, intellectually, emotionally, and socially as all of these impact the instructional methods used. The educational system, both past and present, is reviewed along with the responsibilities that come with employment.

	<p>Notes: We thought it was an excellent book! We would have loved a teacher edition to help higher level thinking for students. Strengths: experiments in the back; great graphics; excellent lab book with charts, vocab. Building, games, evaluation data, and analyzing data. Weaknesses: never had any FCCLA reference; jumped around a lot. No consistency in sequence; critical thinking questions could have been on a higher level; no background knowledge at the beginning of the text.</p> <p>Key Features: <i>Principles of Food Science</i> demonstrates how the laws of science are at work in the preparation of food, both at home and in industry. By studying nutrients and other food components, students learn basic chemistry concepts, including the structure of atoms, different forms of energy, and water's role as the universal solvent. The text covers macronutrients, micronutrients, and micro components; the positive and negative effects of microbes on foods; and food preservation and packaging.</p>

Goodheart-Willcox	Succeeding in Life and Career	Parnell	2012	9-12		Recommended as a comprehensive program for Teen Living	
	<p>Notes: Meets many, but not all, of the IOT standards. Pages of text have too much visual clutter with cartoon and photo integration, tabs, colors, and borders. Online functionality supports text and provides project-based learning for students. Text available online completely with search function. Strengths: Online access supports text with projects, activities, videos, etc. Many related and beneficial projects are introduced in the text Job interview information is detailed. Guide on page xvi explains procedures with project format. Reading Skills Handbook on page xxiv-xxvii is excellent. Hybrid text and online features are beneficial for modern student learning. Weaknesses: Military careers are not explored within the text. Career exploration is limited within the text, project online must be completed. Establishing short and long range goals is not present within the text. Networking, negotiating, and mentoring in careers are very limited within the text. Benefits, contact personnel, and hiring practices are very limited within the text. Multiple topics touched very briefly, not a lot of in-depth, critical thinking pieces outside of the encouraged projects. Some of the picture integration with the text is overwhelming, too much going on; cartoons present a more juvenile than professional approach (ie. depiction of dress of students on cover, etc.) No résumé example in text; could not locate on online access. No teacher search feature online outside of online textbook. Key Features: <i>Succeeding in Life and Career</i> is an advanced comprehensive text designed to help teens adjust to change, especially as they become young adults. A lifespan development chapter provides understanding of how people change over time, from newborn to older adult. Career readiness is stressed, and each of the 16 career clusters is explored along with related jobs and their requirements for success. Skills development, financial literacy, healthy lifestyles, housing, and transportation topics are also included.</p>

Goodheart-Willcox	Preparing for Life and Career	Liddell, Gentzler	2012	6-8	Recommended as a comprehensive program for Young Living	
	<p>Notes: We recommend for content area of Young Living, grades 6-8, but it is lower level thinking. Higher level thinking skills and technology integrations are limited in this addition. Not recommended for Teen Living, 9-12 as publisher suggests.</p> <p>Strengths: Meets content standards; well organized; well linked to the companion website; we loved the connection to FCCLA; the reading prep section at the beginning of the chapter is useful; liked web activities and loved the option of printable version. Weaknesses: The text is information or knowledge-based, not inquiry based; e-book version needs to be more interactive with vocab and other links; needs more cultural integration beyond pictures; technology needs to be integrated throughout the textbook. For example, social media, text communication, etc.; in some school districts, the required plug=ins will be a huge problem without tech. administrative authority.</p> <p>Key Features: <i>Preparing for Life and Career</i> is an intermediate, teen-focused comprehensive text that guides students in developing the skills needed for success as they become more independent. Unit subjects such as relationships, careers, nutrition, clothing, and transportation are covered by chapters divided into short, easy-to-understand sections. Interpersonal communications, consumer education, getting a job, caring for children, preparing foods, and sewing skills are included.</p>
