	Notes: This text covers the majority of the Idaho performance standards. The online version was easy to use. The browser version was not as convenient. There could be more electronic support for the text. Was not able to access MindTrap. Well done procedural steps for specific skills, good tables and graphics, well organized, precise language. Physical assessment of injuries is too specific for secondary students. Depth of injuries is missing- too simplistic. It doesn't include reasoning for procedures or provide evidence based explanations or support materials. Instructor will need to supplement this text.

	<p>Notes: Learning objectives were only found on student website. Assumes all students have internet access. Addition of Human Bio exceeds current performance practices. Arrangement of concepts with visual diagrams very effective. Great for visual learners. Leadership opportunities were only found under house calls in teacher manual. Online text available with premium package. Lacking higher level thinking activities and questions. Really liked heartsongs. Think students will really enjoy format. "Key topics" at the end of the chapter not as comprehensive as learning objectives. There is a general discussion of learning styles in the instruction manual. No clear instructional plans. Can only access online activities with Adobe Flash based system. Excludes iPad users. No teacher edition submitted. No glossary.</p>						
	<p>Key Features: Beginning with an overview of the body, including its chemical and cellular structures, then progress to one-of-a-kind portrayals of each body system, grouped by function.
