Guide Summary

This Quick Reference Guide covers the process of registering a new Profile with Certiport, with specific focus on Test Candidates who wish to take an exam at a Certiport Authorized Testing Center (CATC).

Registering a New Profile

1. To begin, navigate to the Certiport website at www.certiport.com.

2. Next, click on the green “Register” link in the top right-hand corner of the page.

3. Complete all required fields on the first page of the User Registration Pathway - the “Welcome” page.

4. Next, complete the “Account Setup” page.

The Welcome Page asks for the following information:

- **Preferred Language**: The item selected here will cause any pages within our website that have translations to appear in the language chosen. Please note that not all pages have been localized, and that the default language displayed if the translation does not exist will be English.

- **Country of Residence**
- **Certiport Privacy Statement**
- **CAPTCHA Security Verification**

5. The next step in the User Registration Pathway is to complete the “Personal Information” page.

The Account Setup page is where you will enter your Name and Age, create your Username and Password, and select the Security Questions to be used for potential Account recovery.

**Note**: The credentials entered here will be used not only to access your account, transcripts, and tools within the website, but will also be used to begin all Certiport-based certification exams and practice tests within the iQsystem 7, Console 8, or Online/LMS exam delivery systems.

6. Next, complete the “Profile” (demographic) page.

On the Personal Information page you will enter your contact E-mail Address, your Mailing Address, and specify any optional information such as Phone Number, Student ID, and Alternate Mailing Address.

7. Complete the “Purpose” page.

When you click “Submit” on the Profile page your account will be created and you will be sent an e-mail confirmation with your Username.
The Purpose page is where you will indicate the types of activities you wish to perform under the new account. For Test Candidates, please checkmark "Take an exam or prepare for an exam" and then click "Next".

**Note:** Creating a Certiport profile is also the first step to becoming a Proctor, Teacher, and/or other administrative roles within the Certiport website which are not covered within this document.

8. Fill out the information on the “Program Registration” page. Each exam vendor requires additional registration except for the Certiport IC3. Click on the “Register” button for each exam vendor in which you will be taking an exam. Here you can use your Certiport profile information to populate your exam vendor account, which will sync all future certification and transcript data with the test provider. You may also be asked to sign their own non-disclosure agreements while registering. This profile page can be accessed at any time to register for additional programs.

**Note:** It will be necessary to maintain additional profiles at some third-party sites in order to access certain certificates and transcripts that are not fulfilled by Certiport (e.g. Microsoft MTA). Please contact Customer Service for more information.

9. The final page in the User Registration pathway is the “Summary” page. If you have completed all the steps in the pathway you may click “Finish”.

After the Summary page you will be signed into the website for the first time and be taken to the home page of the Test Candidate role.

This guide only covers the User Registration process. For information on the features and tools available to you under this new role, please visit our Test Candidate support page.
