

Possible “Power” WORDS for generating INQUIRY QUESTIONS:

Power Words:

Value	Benefit	Protection
Worth	Consequence	Depletion
Cost	Purpose	Public
Price	Principle	Community
Significance	Intent/Intention	Unrestricted
Merit	Goal	Open
Respect	Resolve	Free
Treasure	Conservation	Communal
Evaluate	Preservation	Common
Attach importance to	Accumulation	Shared

Of course you may use: WHO, WHAT, WHY, WHEN, WHERE, and HOW

You might also try: To what extent ____...?
Under what conditions ____...?
Who is benefiting from ____...?
What is the controversy ____...?
What are the negative externalities of ____...?

Remember: Some questions function to WIDEN the relevance of your research topic...
Some questions allow you to focus the instruction from the standpoint of a case-in-point.

Remember that your point of inquiry will be fairly specific, but allow you to research/teach about a larger environmental issue.

To Consider:

How does your question allow focus into the larger Essential Question

WHAT IS GOOD WATER?
