

Frayer Model

Definition	Characteristics / Draw
Examples	Non-Examples

The diagram consists of a large rounded rectangle divided into four quadrants by a vertical and a horizontal line. In the center, where the lines intersect, there is a gray oval. The top-left quadrant is labeled 'Definition', the top-right 'Characteristics / Draw', the bottom-left 'Examples', and the bottom-right 'Non-Examples'. The central oval is empty and serves as a focal point for the model.
