

Can I Drink This?

Terrible news! You just found out that your BEST friend was in an accident! The accident has damaged his/her olfactory bulb (the nerve that allows you to smell stuff), and he/she has lost their eyesight!

Unfortunately, you have found out that people have been taking advantage and have been giving strange things to your friend to drink all day long, telling him/her that its WATER! Your friend is fed up, super thirsty and unwilling to trust even you! Your friend has four beverages that they have been given. Help your friend figure out which is safe to drink(water). You may not use your sense of smell, sight or taste. Keep track of everything that you do in your group on this paper.
