

Stoichiometry

Using the legos in your bucket, build **two identical** structures of your choice. You must use a minimum of three of the colors in your bucket. **YOU HAVE 15 MINUTES!**

Record the **total** number of each color used to build your structures.

Color: _____ # pieces: _____

Color: _____ # pieces: _____

Color: _____ # pieces: _____

Color: _____ # pieces: _____

Color: _____ # pieces: _____

- How did you do it?

- What is a different way to do it?

These are the four equations that you could make...
