

Idaho SAT Accommodations Webinar

November 28, 2017

Q&A

Is the reading or written language expression accommodation request active since Idaho will not be administering the essay portion this year?

No, was for essay. However, it will not hurt to leave this field checked or on for student requests.

Are there any differences between the PSAT accommodations request process and SAT school day process?

No, no differences when requesting accommodations between the two tests. SSD coordinators need to have permissions to access the SSD College Board portal. Please contact Idaho's specific College Board customer service email address if needing further information on SSD Portal Access.

Email: IdahoSDSupport@collegeboard.org

Is the social security number an optional field?

Yes, it is an optional field on the accommodations request form.

Best practices – Who is best contact in the district to make requests or determination of accommodations?

This can vary from district to district, and is a local decision. However, College Board does differentiate the role and encourages this role to work closely with the SAT Day Supervisor. In some cases we realize, this is the same person.
