

<p>Claim 1: Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.</p>	
<p>Target 6: TEXT STRUCTURES & FEATURES: Analyze text structures and the impact of those choices on meaning or presentation.</p>	
<p>Clarifications</p>	<p>Item require students to analyze the structure or features of a text. This could refer to an author’s decisions about the structure of the text (for example, a series of flashbacks or the use of chronological order). This could also refer to the author’s decision about structures (for example, dialogue, opening, closure, or setting). Students must consider how these impact structure, meaning, or presentation. Students may also be required to apply reasoning to justify that analysis by identifying supporting evidence within the text. Items should go beyond asking students to identify the way in which a text is structured.</p> <p>All items should require students to cite specific textual evidence to support conclusions drawn from the text(s).</p>
<p>Standards</p>	<p>RL-1 <u>Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.</u></p> <p>RL-5 <u>Analyze how an author’s choices concerning how to structure specific parts of a text (e.g., the choice of where to begin or end a story, the choice to provide a comedic or tragic resolution) contribute to its overall structure and meaning as well as its aesthetic impact.</u></p> <p>NOTE: <u>Underlined content</u> (from related CC standards) shows what each assessment target could assess.</p>
<p>Depth of Knowledge</p>	<p>DOK 3, DOK 4</p>
<p>Stimuli/Passages</p>	<p>Texts must be rich with external text structures (i.e., flashbacks, chronology, general poem structure) and internal structures (i.e., introduction, conclusion, structure of dialogue, setting, or events) in order to support meaningful analysis.</p> <p>Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on informational text types.</p>
<p>Dual-Text Stimuli</p>	<p>When a dual-text set contains one literary and one informational text, the literary text (text #1) is the primary focus, and the set of items must include items from the literary stimulus as well as items written across both texts. The informational text (text #2) must only be used as a foundational piece for the literary text, and no items can be written for only the informational text. If both texts are literary, items may be written to either or both. In all dual-text stimuli sets, between 25 and 40% of the items should be written across both texts.</p>

English Language Arts Specification: Grade 11 Claim 1 Target 6

	<p>When developing items from dual text, Task Model 5 (short-text constructed-response-WR) should be written using the <u>Appropriate Stems for Dual-Text Stimuli</u> only to ensure students will have the opportunity to respond in writing to information from both texts. Between 25 and 40% of all other items written in the dual-text set should be written across both texts.</p> <p>The title of the each text should be included in the stem when more than one text is used. Dual text is considered long text.</p>
Accessibility	Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.
Evidence Required	<ol style="list-style-type: none"> 1. The student will determine how the overall structure of a text impacts its meaning. 2. The student will analyze or interpret why the author structured elements within the text in a certain manner and the impact of that structure on meaning.
Allowable Item Types	Multiple Choice, single correct response (MC); Multiple Choice, multiple correct response (MS)

Task Models	
<p>Task Model 1</p> <p>Item Type: Multiple Choice, single correct response (MC)</p> <p>DOK: 3, 4</p>	<p>Task Description:</p> <p>The item stem will prompt the selection of a statement that requires the student to analyze, interpret, or connect ideas regarding text structure or features.</p> <p>The answer choices will present four options of similar structure. The correct answer will be a clearly discernible and correct description, analysis, or interpretation of the text structure or features. The distractors will be statements that may be plausible to students who 1) misinterpret details in the text or text feature OR 2) make erroneous analyses about the text or text feature. Distractors will reflect common student errors.</p> <p>Rationales should state the justification for the type of plausible distractor.</p> <p>Target Evidence Statements:</p> <ol style="list-style-type: none"> 1.
