### TIDE Test Impropriety Type

Please refer to the **Test Improprieties** in TIDE chapter of the **AIR Systems User Guide** for more examples of each type of impropriety

Type	Description & Example
Invalidate a Test	Eliminates the test opportunity, and the student has no further opportunities for the test. <b>Example:</b> student started a test but it was discovered they should take the Alternate Assessment
Reset a Test	Allows the student to restart a test opportunity (removing all responses on the test), or allows the data entry operator to restart the data entry process. <b>Example:</b> Correct accommodations were not provided prior to testing
Re-open a test	Reopens a test that was completed, invalidated, or expired. <b>Example:</b> Student illness and test expired but the test window is still open
Re-open test segment (Not applicable to pause rule)	Reopens a previous test segment. This test impropriety is useful when a student inadvertently or accidentally leaves a test segment incomplete and starts a new test segment. Students can answer unanswered items, and can modify responses to answered items in the reopened segment. <b>Example:</b> Student went on to next segment and didn't go back to check flagged items.
Restore a test that was reset	Reverses a reset, restoring the student's responses on the test when the reset was processed. This appeal is useful when a DA, DC, or SC inadvertently resets the incorrect test. <b>Example:</b> A test was erroneously reset.
Grace period extension (GPE)	Allows the student to review previously answered questions upon resuming a test or test segment after expiration of the pause timer. For example, a student pauses a test, and a 20-minute pause timer starts running. <b>Example:</b> Test interrupted by school fire drill

### Creating a Test Impropriety Through File Uploads

- From the **Test Improperities** task menu, select the **Upload Test Improperities** task.
- Download one of the file templates by clicking **Download Templates** and choosing either the Excel or the CSV template.

### Creating a Test Impropriety Through File Uploads (Part 2)

#	A	B	C	D	E
1.	TYPE	SEARCHTYPE	SEARCHVALUE	REASON	COMMENTS
2.	Invalidate a Test	Result ID	5-digit value	Administered Wrong Test	Enter more specific information regarding submission
3.	Reset a Test	EDUID	123456789	Internet Connectivity Issue	
4.	Re-open a Test	Session ID	ID-12AB-1	Surpassed Pause Time	
5.	Grace period extension				
6.	Restore a test that was reset				
7.	Re-open Test Segment				

Columns in the Test Improperities Upload File:

- Type:** Select one of the 6 options available
- Search Type:** Result ID, EDUID, and Session ID
- Search Value:** The value must exist in TDS or TIDE. For example, specifying an EDUID requires that the EDUID exists in TIDE
- Reason:** Reason for creating the test impropriety available from the pre-populated drop-down
- Comments:** Enter additional information detailing reason for submission

---

### Creating a Test Impropriety Through File Uploads (Part 4)

The screenshot shows a multi-step process. Step 4 involves reviewing a table of test items with columns for Item Number, Type, Name, Request Status, and Comments. A red arrow points to the 'Upload Test Files' button. Another red arrow points to the 'Additional Comments' screen, which has a 'Submit' button.

---

---

---

---

---

---

---

---

---

---

### What happens after submitting?

- After you create and submit a Test Impropriety, the Idaho State Department of Education (SDE) will carefully review your request, and either **approve** or **deny** your request.
- It is important to choose the appropriate type of impropriety you are requesting approval for in order to avoid any delays in testing
- Keep in mind the approval process is manual! This means, the more detail you add in the *Additional Comments* box, the faster SDE will review and process your request
- Once SDE approves the Test Impropriety, you will be able to take immediate action!

---

### Viewing Test Improperities

The dashboard includes a sidebar for 'Administering Tests' and a main content area with filters for 'Request Type' and 'Request Status'. A search bar is at the bottom. A blue starburst graphic in the top right corner states: 'All TIDE users are able to view Test Improperities'.

### Viewing Test Improperities (continued)

Click **Process** to view some of the additional actions listed below:

- Select **Retract** to retract a test impropriety request that was accidentally submitted
- Select **Resubmit** to resubmit a test impropriety request that appears in the "Rejected by System" status

Case Number	Request ID	Request Number	Request Title	Request Status	Request Type	Request Category	Request Sub-category	Request Date	Request User	Request Location	Request Description
1007	1007	1007	1007	Pending Approval	Other	Other	Other	10/10/2017	1007	1007	1007
1008	1008	1008	1008	Pending Approval	Other	Other	Other	10/10/2017	1008	1008	1008
1009	1009	1009	1009	Pending Approval	Other	Other	Other	10/10/2017	1009	1009	1009

### Status of Test Improperities

Impropriety Request Status	Description of Status
Error Occurred	An error occurred while the impropriety request was being processed.
Pending Approval	Impropriety request is pending approval.
Processed	Impropriety request was successfully processed and the test opportunity has been updated.
Rejected	Another user rejected the impropriety request.
Rejected by System	Test Delivery System was unable to process the impropriety request.
Requires Resubmission	Impropriety request must be resubmitted.
Retracted	Originator retracted the impropriety request.
Submitted for Processing	Impropriety request submitted to Test Delivery System for processing.

**Note:** If you have submitted duplicate test impropriety requests and one has been approved, the other test improprieties will be placed in a "Rejected by the System" status. The best way to determine this is to filter your request by EDUID to view all test improprieties.

**Things to Remember**

You can contact the AIR Idaho Help Desk for assistance with any technical issues you encounter.

When contacting the AIR Idaho Help Desk, please be ready to provide:

- Any error messages that are appearing (including error codes)
- Your operating system and browser information
- Your contact information for follow-up by phone or email
- Any other relevant information, such as test names or subject areas, student EDUIDs, session IDs, and search criteria

For test administration or policy issues, please contact your District Test Coordinator
