## **Purpose**

Section 618, 616, and 20 U.S.C. § 1418, §300.640, §300.641 of the Individuals with Disabilities Education Act (IDEA) requires that each state submit data about students with disabilities, ages 3 through 21, who receive special education and related services under Part B of IDEA. In Idaho, required data elements are collected in local educational agency uploads to the Idaho System for Educational Excellence (ISEE). The purpose of the *Reporting Special Education Data in ISEE* document is to provide local educational agency (LEA) staff with guidance necessary to report high quality educational data to Idaho State Department of Education (SDE) and improve the educational and functional outcomes of students receiving special education and related services in Idaho.

## Special Education Students

The following fields are necessary for documenting information regarding special education and related services.

Once a student is determined eligible, additional information can be included in the students record.

## Educational Environments

Students ages 6-21 years

**Educational Environments for 6 through 21 year olds [environment]** Use the following codes if a student is age 6 through 21 as of the date of Child Count, first Friday in November. Please note, Educational Environment codes are dependent on age and not the grade level attained.

*DEFINITION: The **General Education Classroom** is defined as an environment that includes 50% or more non-disabled children who are representative of the general school population. For students with disabilities who receive their education in a public virtual school setting, the general education classroom is defined as the same environment as that in which students without disabilities receive instruction, i.e. the home environment.*

- 01 General ed class 80% or more:** 6-21 YEAR OLDS – Student is inside the general education classroom 80% or more of the day. In a 6 hour school day, the student is inside the regular class at least 4 hours and 48 minutes.
- 02 General ed class > 40% < 80%:** 6-21 YEAR OLDS: Student is inside the general education classroom at least 40% but not more than 79% of the school day. In a 6 hour school day, the student is inside the regular class at least 2 hours, 25 minutes, but not more than 4 hours, 47 minutes.
- 03 General ed class less than 40%:** 6-21 YEAR OLDS: Student is inside the general education classroom less than 40% of the school day. In a 6 hour school day, the student is inside the regular class 2 hours, 24 minutes or less.
- 11 Public separate day school:** 6-21 YEAR OLDS: Student is in a district self-contained classroom in a separate special education school for more than 50% of the school day – more than 3 hours in a 6 hour day.
- 12 Private separate day school:** 6-21 YEAR OLDS: Student is placed in a private special education day school / facility at public expense for more than 50% of the school day – more than 3 hours in a 6 hour school day.
- 13 Public residential facility:** 6-21 YEAR OLDS: Student receives education services in public residential facility for more than 50% of the school day and resides in that facility during the school week.
- 14 Private residential facility:** 6-21 YEAR OLDS: Student receives education services in a private residential facility at public expense for more than 50% of the school day and resides in that facility during the school week.
- 15 Hospital or homebound setting:** 6-21 YEAR OLDS: Student receives special education services in a hospital or homebound setting. Do not include virtual charter school students.
- 16 Correctional facility:** 6-21 YEAR OLDS: Student receives special education services in a detention center or correctional facility.

- 21 Parentally placed in private school:** 6-21 YEAR OLDS: Student is voluntarily enrolled in a private school by parents. The only services provided at public expense are special education/related services. Do not include students enrolled in a public virtual charter school.

### **Educational Environments ages 3-5 years**

Early Childhood environment codes should be determined using the Decision Tree for Determining Early Childhood Environments, see Figure 1.

Definition: The **Regular Early Childhood Program** is defined as an environment that includes at least 50% non-disabled children (i.e., children not on IEPs). Regular Early Childhood Programs may include but are not limited to:

- Head Start
- Kindergarten
- Preschool class offered to an eligible pre-kindergarten population by the public school system
- Private kindergarten or preschool
- Group child care center

Please note, if a student is age five at the beginning of the school year and turns age six later in the year information regarding the change in educational environment must be included in the student's IEP as a note or second least restrictive environment (LRE) page.

Example statement: For coding purposes the student, as of age five will use (specify early childhood environment code) and upon turning age six coding will shift to (specify school age environment code). This change in coding is for documentation purposes only and has no impact on the students' LRE placement or service location.

**Educational Environments for 3-5 YEAR OLDS [environment]** Use the following codes for students age 3-5 as of the date of Child Count, first Friday in November regardless of grade level attained.

The student attends a Regular Early Childhood Program.

- 49** Attends a regular early childhood program at least 10 hours per week and receives the majority of Special Education and related services in the Regular Early Childhood program.
- 50** Attends a regular early childhood program at least 10 hours per week and receives the majority of Special education and related services in some other location.
- 51** Attends a regular early childhood program less than 10 hours per week and receives the majority of Special Education and related services in the regular early childhood program.
- 52** Attends a regular early childhood program less than 10 hours per week and receives the majority of special education and related services in some other location.

*Children attending regular early childhood programs should be reported in one of the environments above even if they receive special education services in other environments.*

The student **does not** attend a Regular Early Childhood Program but **does** attend a public or private special education program.

- 44 Separate Special Education Class:** Student attends a special education program that is not a regular early childhood program.
- 45 Separate School:** Student receives Special Education in a public or private day school designed specifically for children with disabilities.

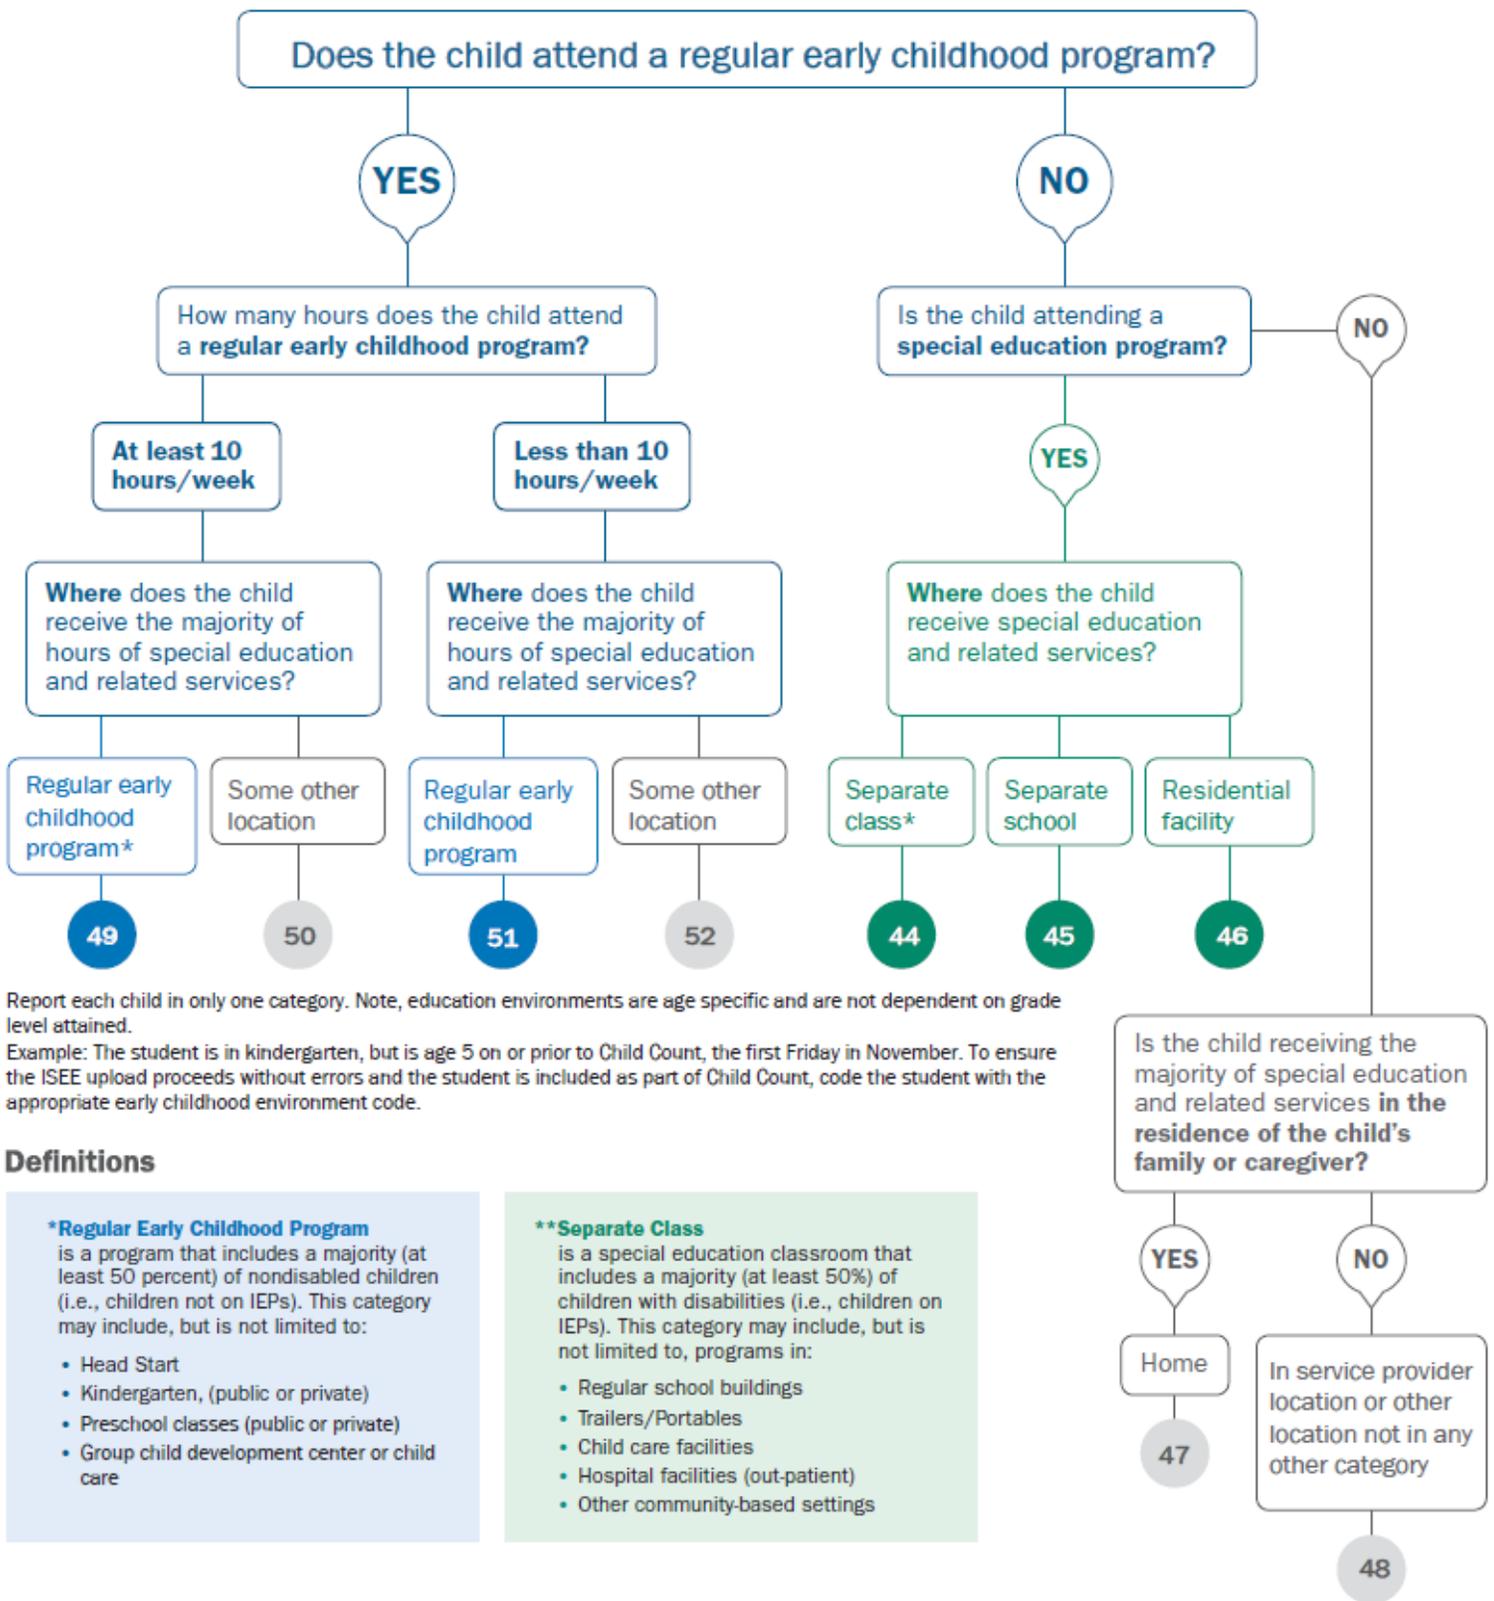

**46 Residential Facility:** Student receives all special education and related services in a public or private residential facility.

The student **does not** attend a Regular Early Childhood Program and **does not** attend a special education program.

**47 Service Provider Location or some other location not in any other category:** Student receives all special education and related services from a service provider and does not attend a special education program in any regular early childhood program.

**48 Home:** Student receives special education and related services in the principal residence of the child's family or caregiver and does not attend a regular early childhood program or a special education program.

Figure 1: Decision Tree for Reporting Educational Environments Ages 3-5

Report each child in only one category. Note, education environments are age specific and are not dependent on grade level attained.

Example: The student is in kindergarten, but is age 5 on or prior to Child Count, the first Friday in November. To ensure the ISEE upload proceeds without errors and the student is included as part of Child Count, code the student with the appropriate early childhood environment code.

**Definitions**

**\*Regular Early Childhood Program**

is a program that includes a majority (at least 50 percent) of nondisabled children (i.e., children not on IEPs). This category may include, but is not limited to:

- Head Start
- Kindergarten, (public or private)
- Preschool classes (public or private)
- Group child development center or child care

**\*\*Separate Class**

is a special education classroom that includes a majority (at least 50%) of children with disabilities (i.e., children on IEPs). This category may include, but is not limited to, programs in:

- Regular school buildings
- Trailers/Portables
- Child care facilities
- Hospital facilities (out-patient)
- Other community-based settings

## Exceptionality

**Exceptionality** [exceptionality1] Report **one** of the following as the student's primary disability.

Only one exceptionality is collected for purpose of state reporting and Child Count.

Note: It is important to address *Warnings* that are issued in ISEE uploads. Students with misalignment between student age on the Child Count date and exceptionality categories (Specific Learning Disability and Developmental Delay) will be removed from the Child Count reporting.

- 01 Specific Learning Disability (ages 5-21 only)
- 02 Cognitive Impairment
- 04 Speech Impairment
- 05 Language Impairment
- 06 Emotional Disturbance
- 07 Health Impairment
- 08 Orthopedic Impairment
- 09 Deaf
- 10 Hearing Impairment
- 11 Visual Impairment
- 12 Deaf/Blindness
- 13 Multiple Disabilities
- 14 Developmental Delay (ages 3-9 only)
- 15 Autism Spectrum Disorder
- 16 Traumatic Brain Injury

For additional information on eligibility categories see the Idaho Special Education Manual, Chapter 4: Evaluation and Eligibility.

# Reporting Special Education Program Exit

Special Education Program Exit is a required data collection for 618 federal ED Facts reporting which documents how students exit special education and related services. To improve data quality the SDE has aligned special education program exit and school exit reasons fields, as appropriate.

**Special Education Status [SEStatus]** The status of the student relative to special education and related services (A - active, I - inactive or T - tested-ineligible).

**\*\*Note:** T – *Tested-ineligible* is only used for initial eligibility. If a student is determined no-longer eligible after reevaluation the student should be marked as I – *inactive*.

**Special Education Exit Date [SEExitDate]** If the special education status *SEStatus* is *I-inactive*, the date the student became inactive must be entered. The Special Education Exit Date must be after the Special Education Entry Date.

**Special Education Exit Reason [SEExitReason]** A student who received special education and related services during the current school year and exits special education must be reported with *SEStatus* of *I-inactive* and list one of the following exit reasons.

Note: Listing the Special Education Exit Reason of **12 Summer Break** does not constitute removal from special education and related services. The code indicates that the student has a temporary interruption of services because of a regularly scheduled school break for all students.

## **01 Graduated – Met State Standards:**

Graduated by completing all necessary high school credit/content graduation requirements, with or without accommodations, and have met any additional graduation requirements. 08.02.03.105

- Students who have graduated with a regular high school diploma that is fully aligned with Idaho State High School Graduation Requirements. 08.02.03.10

## **02 Completed - Adapted Requirements:**

Program of study addressed adapted (modified or differentiated) coursework as outlined in an IEP (refer to Special Education Manual), but did NOT meet Idaho State High School Graduation Requirements per 08.02.03.105.

- Students with disabilities who have satisfied an IEP but NOT regular Idaho State High School Graduation Requirements; these students may have been awarded a high school diploma for completing adapted requirements that are NOT comparable to regular graduation requirements which align to Idaho State High School Graduation Requirements.
- Student who qualify for special education are entitled to FAPE - IDAPA 08.02.03.109.07
- Students with this exit code are NOT counted as graduates in cohort grad rate calculations

## **04 Reached Maximum Age:**

Reached Maximum Age - 21 years of age.

- Students who have completed the semester in which they turned 21, without receiving a regular high school diploma which is fully aligned with Idaho State High School Graduation Requirements (08.02.03.105, Idaho Code 33-201).

## **05 Dropped Out:**

Dropped out

- Student exits current enrollment, and does not meet the definition for any other inactive reason.

Code the following situations as dropout:

- 1) confirmed dropouts
- 2) runaways
- 3) students whose status is unknown
- 4) students leaving school to pursue and receive a GED

**06 Transfer to Another Education Environment:**

**Option Definition:** Transferred to Another Educational setting

- Student transferred to another local educational agency (LEA) or agency providing educational services toward completing high school graduation requirements and is known to be continuing in a general or special education program.

Include students who transferred and are receiving education in any of the following:

- 1) Juvenile detention centers
- 2) Correctional facilities
- 3) Private schools
- 4) Job Corps
- 5) Virtual Charter Schools
- 6) Home School

To use this code, there must be verification that the student is continuing in some education program in the form of a request for records or a statement from the parents. Hearsay is not adequate verification that the student is known to continue.

**07 No Longer Eligible for Program:**

**Option Definition:** No Longer Eligible/Returned to General Education

- Students who are determined no longer eligible to participate in the program through eligibility determination or parent refusal of consent.
- Students who no longer have an active IEP and are no longer receiving special education services and are now receiving all educational services from a regular education program.

**08 Deceased:**

**Option Definition:** Student passed away.

- Students who have passed away during the school year or who have passed away during the summer.

**12 Summer Break:**

**Option Definition:** Summer break from program services; expected to resume the following school year.

- Students with active IEP, who have a temporarily break in special education and related services as a result of the regularly scheduled summer break for all students, student is expected to resume services in the following school year.

## Reporting Child Find (60 Day Timeline) Data in ISEE

The ISEE Special Education Student template includes the items shown in the table below.

These fields are used to capture information about a student's initial eligibility for special education and related services.

Fields collecting information regarding initial eligibility and the 60-day timeline are only required if the students initial determination date was after the end of the prior school year calendar or in the current fiscal school year. If the student were determined **ineligible**, he or she would not be included again in the Special Education Student file (unless subsequently referred for evaluation).
