“Supporting Schools and Students to Achieve”

Hi Rhonda,
The committee groups did a great job with revisions/rephrasing/economizing sentences!

I agree with Shawn with aligning the order of standards with national standards.

Below are a few other suggestions:
K-2 PE 4.1.1: Add the word 'components' after 5 health-enhancing fitness components.
3-5 PE 4.1.1. Add the word 'based' after performance: ....performance based on evidence-based standards.
3-5 PE 4.1.2. The insertion of ‘teacher directed’ is a bit confusing based on the examples given...teacher-directed learning cannot happen at home or in the community. I would suggest to remove that phrase.
9-12 PE 3.1.2. Change the sentence to read 'In combination with' instead of 'In combination to'...this change will also be similar to the wording for the same 6-8 objective.

Health Standards revisions look good.
Thanks for all the revision work!
Jane

Hello All,

This year with an effort to garner public opinion on the proposed standards for each content area, there are public forums available to listen to public opinion and record comments. Physical Education and Health Education revised standards are a part of the process. I wanted to make you aware of the changes and give you the opportunity to make public comment.

Here is the link where all the draft standards are located that are part of the public comment period this month. This comment period will end on April 29, but anyone can provide a comment online that will be captured and added to those we receive at the face-to-face public meetings.

Please feel free to comment using the survey monkey link.

Thanks Rhonda. I did.
It’s imperative they make the switch of the order to align with SHAPE America national standards. This will make our lives as teachers so much easier in many, many ways. From grant writing to standards based report card groups I am participating in and more...
Thank you,
Jessica

<td>I like it, however, I would like to see our standards line up with the national SHAPE standards. As it reads now Standards 1 and 2 are the same but then 3, 4 and 5 are in a different order. I would like them to be as follows: 1. Skilled Movement, 2. Movement Knowledge, 3. Health Enhancing Personal Fitness, 4. Personal and Social Responsibility, and 5. Valuing a Physically Active Lifestyle.</td>

Please re-number the standards - switching #4 and #5 respectively. That is it. This alignment is CRUCIAL to teachers because we participate in national initiatives and our national SHAPE America association (Society for Health and Physical Education) has national standards that are similarly worded and similar topics but their Standard #4 is Idaho #5 and their Standard #5 is our Idaho #4. This is too confusing and causes a disconnect. It makes it difficult to apply for larger federal level grants when standards get confusing and don't have some alignment. It would make things much easier to make the switch NOW to the new National Standards that were just recently approved as well. Please switch the order of the last two standards in P.E.
