Stakeholder Comment:

I would like to see more culturally sensitivity training be added to the PSC, for teachers and administrators.

I would also like to see a policy adopted to support Native American high school graduates wear their eagle feathers at graduation.

Stakeholder Comment:

Idaho Standards for School Principals - Performance #2 - this does not make sense -
 needs ~~more~~ ^{reviewed} maybe reviewers should be "models" -

Does the school principal review the vision, mission of the school or does
the principal create a culture of collaboration and the principal leads
the collaborative team or PLC as this group reviews the vision, mission?
Just wondering

Where do principals find the ethical frameworks + perspective? Is this
just the Code of Ethics for Professional Educators? or is it different?

What's the significant difference between #3 & #5?

It seems like the same core purpose - just different words describing similar expectations

I do like the new descriptors compared to the previous descriptors! Much more reflective of today's expectations.

I like the new descriptors for the Superintendent as well.

I will ~~not~~ look up the National Policy Board for Educational Administration to learn more
