Parents,

For the next few weeks, your child will be studying teeth and answering the essential question, “Why should I care about my teeth?” I’m inviting your child to look for artifacts (pictures, drawings, objects, etc.) in his or her life outside of school that are teeth-related in any shape or form or that help answer this essential question. You might keep your eyes peeled for these things as well, just in case your child doesn’t notice them. They are welcome to bring in artifacts whenever and as often as they’d like. Thank you!
