

## **2016 Key Points for EOC Test Administration - IMPORTANT**

- Districts will be responsible for uploading student data using Upload Multiple Students in eDIRECT. ISEE files will no longer be used for uploading student data or reporting.
- Chromebooks, iPads, and Android Devices will be supported for online testing.
- Invalidations and reactivations/unlocking of student tests no longer require SDE approval.
- Windows XP and Mac 10.6.8 are no longer supported for online testing and will be blocked. Windows Server 2003, Windows XP, and Mac 10.6.8 are no longer supported for the Testing Site Manager (TSM).
- The Device Toolkit will be the platform used in eDIRECT to manage student testing devices.
