ASSESSMENT & ACCOUNTABILITY QUESTIONS & ANSWERS

If students in Gr 11 are only enrolled in the district for a Science Course, do they take the ISAT Science? Will they need to take ELA and Math?
If the student is enrolled and will be on your May 1 roster, they are expected to take that test.

Approximately how long is the ISAT science test for grade 11?
Estimated time is 1 hour to 1.5 hours

Will AVA still be open during the Summative Assessments?
Yes- will remain open.

Just to clarify can a 7th grade ELA teacher test another 7th grade ELA teachers class?
If that is the only option for switching classes, that is acceptable- but preferably switch subjects.

Many of our SpEd teachers with students requiring small group or separate setting, can they test their own students?
It is recommended that they have another adult, example: para, in the room during the assessment.

Is there a plan to upload IRI data from the new exam to the Assessment Data Export system?
Yes, we are working with IT to make that happen before May 1st. We will communicate that when it becomes available.

Will score data from Interim assessments remain available to teachers in Airways after the summative window opens?
Yes, we are working with IT to make that happen before May 1st. We will communicate that when it becomes available.
Is there a plan to add SAT scores into the Assessment Data Export system? Scores haven't been added since the test changed?

We are working on that right now with IT. Look for those soon—we will communicate when we know.

Do Seniors have to take ISAT's ELA/Math and Science to graduate also?

No, their scores were already captured when they were in 10th grade.

Will the approved multiplication chart be added to the portal like the 100s chart or just use the busy one right out of the TAM?

Use the one in the TAM for now—we'll look into it further.

Since our district is primarily a chromebook district, what will the district need to plan on after 2021?

We are still working on this. Istation is working with Google to come up with a solution—more to come.
