UPCOMING FALL IRI TRAININGS

The trainings listed in this document are meant to support coordinators, administrators, and teachers with successful implementation of the Idaho Reading Indicator (IRI) for the beginning of the school year. More professional development opportunities will be scheduled throughout the school year.

Please choose the training(s) that best fits your need to attend. **If you are unable to attend on these dates, please still register. The recording will be sent to your email for you to watch at your convenience.**

| 9/12/23 10:00-10:30 MT | All Teachers and Admin | **Oral Reading Fluency**  
Learn about Istation's Indicators of Progress (ISIP™) Oral Reading Fluency (ORF) assessments and the importance of using the data to drive instruction. Istation ORF allows teachers to automatically measure oral reading fluency from digitally recorded passages for students in grades K–5 for both English and Spanish. Review grade levels availability and recommended assessment frequency.

| 9/18/23 10:00-10:30 MT | All Teachers and Admin | **Rapid Automated Naming**  
Istation’s Indicators of Progress (ISIP™) Rapid Automated Naming (RAN) screening assessment offers educators an online screening tool that measures students' processing speed, which may be an indicator of reading difficulties such as dyslexia. ISIP as a Dyslexia Screener Istation is an approved dyslexia screener in many states. When ISIP assessments are used to identify students who may be showing characteristics of dyslexia, teachers can intervene in key areas of instruction to determine if a student will respond to intervention.

<p>| 10/5/23 3:30-4:00 MT  | All Teachers and Administrators               | <strong>Growth Pathways Report</strong>&lt;br&gt;This session will explore the new ISIP Reading Growth Report! This report will use BOY or MOY data to create EOY projections which will allow educators to see whether their students are exhibiting below typical, typical, above typical, or accelerated growth projections. The growth pathways simplify growth percentiles into four universal buckets, making it easy to evaluate growth relative to expectations |</p>
