| Claim 1: Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts. | |
| Target 7. LANGUAGE USE: Determine the meaning of words and phrases including figurative language (e.g., metaphors, similes) or demonstrate understanding of nuances in word meanings used in context. | |
| Clarifications | <p>Items should NOT ask students to identify the type of figurative language that is being used but rather interpret its meaning and impact on the text (i.e., “Which of the following is an example of a simile?” vs. “What impact does the phrase “xxx” have in the text?”).</p> <p>All items should require students to cite specific textual evidence to support conclusions drawn from the text(s).</p> |
| Standards | <p>RL-4 <u>Determine the meaning of words and phrases as they are used in a text, including figurative language such as metaphors and similes.</u></p> <p>L-5 <u>Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.</u></p> <p>L-5a <u>Interpret figurative language, including similes and metaphors, in context.</u></p> <p>L-5b <u>Recognize and explain the meaning of common idioms, adages, and proverbs.</u></p> <p>NOTE: <u>Underlined content</u> (from related CC standards) shows what each assessment target could assess.</p> |
| Depth of Knowledge (DOK) | DOK 2, DOK 3 |
| Stimuli/Passages | <p>Each text will include the use of figurative language and/or literary devices that have a discernible impact on meaning.</p> <p>Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on literary text types.</p> |
| Dual-Text Stimuli | <p>When a dual-text set contains one literary and one informational text, the literary text (text #1) is the primary focus, and the set of items must include items from the literary stimulus as well as items written across both texts. The informational text (text #2) must only be used as a foundational piece for the literary text, and no items can be written for only the informational text. If both texts are literary, items may be written to either or both texts. All dual-text stimuli sets should contain between 25-40% items written across both texts.</p> <p>When developing items from dual-text, Task Model 5 (short text constructed response-WR) should be written using the <u>Appropriate Stems for Dual-Text Stimuli</u> only to ensure students will have the opportunity to respond in writing to information from both texts. Between 25-40% of all other items written in the dual-text set should be written across texts.</p> <p>The title of each text should be included in the stem when more than one text is used. Dual-text is considered long text.</p> |

| <p>Task Model 1 Item Type: <u>Multiple Choice, single correct response (MC)</u> DOK: 2, 3</p> | <p>Task Description: The item stem will prompt the selection of a statement that requires the student to interpret figurative language or literary devices and analyze their impact on meaning. The answer choices will present four options of similar structure. The correct answer will be a clearly discernible and correct interpretation and/or analysis of the figurative language and/or literary devices within the text. The distractors will be statements that may be plausible to students who 1) misinterpret details in the text, 2) misinterpret the figurative meaning of words or phrases in the text, OR 3) make erroneous analyses about the impact of figurative language or literary devices within the text. Distractors will reflect common student errors. Rationales should state the justification for the type of plausible distractor.</p> <p>Target Evidence Statements:</p> <ol style="list-style-type: none"> 1.
