

I wanted to pass along some new CCSSO resources that you may find useful in your work. Please let me know if I can provide assistance in any way.

CCSSO Virtual Summer Learning Resource Guide: Yesterday CCSSO released two related resources to support state education agencies with planning for summer learning – *Virtual Summer School 2020: State Guidance for District and School Leaders*, and aligned *Virtual Summer Learning LEA Planning Guide*. Resources are available in CCSSO’s shared file [here](#) and are attached. The purpose of the resources is to provide states with guidance that their local education agencies can use as they plan summer school opportunities. The State Guidance offers resources and considerations based on what has been learned in the shift to virtual learning and the research behind summer learning. The resources provide tools and recommendations for state and district leaders to ensure summer learning opportunities exist as a bridge between the 2019-2020 and 2020-2021 school years, especially for the most vulnerable children. The guidance emphasizes the importance of making available resources to prioritize the social, emotional, and mental health needs of families and educators during summer school. The guidance is free and open and may be downloaded, edited, and customized as system leaders see fit with attribution to CCSSO. The highlights of these resources were described in detail in yesterday’s webinar, and the slides from this presentation can be found in the shared folder [here](#). A recording will be available later today.
