Set-aside: Budgeted:

School districts in proximity to facilities for students categorized under the federal definition of "neglected" are eligible for an additional allocation under Title I Part A—the "Neglected Set-Aside." These additional amounts are automatically calculated based on a district's submission of the "Idaho Annual Neglected, Delinquent and At-Risk Fall Count" form (due in December) for qualifying facilities within the geographical boundary of the district. Students who are residents of 24 hour/day locally-run facilities generate additional dollars for the LEA's in which they are located, since their residents may attend school in the district on a temporary or ongoing basis.

The additional allocation should be considered as part of your Title I Part A funding for planning and budgeting purposes for services allowable by Title I, Part A to administer programs and serve children in neglected institutions - and if appropriate neglected, delinquent or at-risk students in community day programs. These funds shall be determined prior to any allowable expenditures or transfers by the LEA.

Federal law mandates that students resident in locally-run neglect facilities that attend school in districts where their facilities are located must be provided with the same services as any other Title-IA eligible student. LEA's may opt to partner with neglect facilities in their borders in order to offer special Title IA type programs within in the facility or choose to fund district-wide at-risk/dropout prevention programs.

NOTE: The Title I, Part A Neglected Set-Aside should not be confused with the Title I, Part D Neglected or Delinquent or At-Risk sub-grant program. Title I, Part D subgrant funds are awarded by the Idaho Department of Education primarily to support districts providing juvenile detention education programs in county detention facilities. Visit the Title I, Part D, Subpart 2 web page for more information pertaining to the Idaho Neglected, Delinquent, and At-Risk program.
