

Attendance and Enrollment

Maximizing your Funding

Please share this information with your Business Manager, ISEE Coordinator and any other personnel responsible for reporting Attendance and Enrollment.

WHAT'S CRITICAL?

All enrollment and attendance data for the **Midterm reporting period** must be correctly reported no later than **Friday, December 6th 2019**. **Please be advised that if corrections to your attendance and enrollment data are made after this deadline, your district or charter may lose unrecoverable funding from other programs and/or special distributions.**

It is important to review your attendance and enrollment data against your student management system directly after each submission upload. Remember to send in the upload early to allow time for changes. It is important that all information be tied back to your student management system to verify accuracy. You can usually run reports two or three days after submission. Please be aware that your information may change by a small amount between the time you upload and the end result because of dual enrolled students that you may be sharing with another district or charter. The following reports will be helpful for review:

- Building Level
- Current Year Support Unit Calculation
- Net Enrollment
- Aggregated Attendance Detail
- Greater than One ADA
- Allocated Enrollment
- Best 28 Weeks (end of the year)

CRITICAL ISSUES

SRM Warnings: Please review the SRM warnings carefully. Contact your SDE ISEE Regional Coordinator if you need help.

Calendar Issues: Grade Groupings should stay together. Kindergarten, Elementary 1-6, Secondary 7-12, Alternative 6-12. These groups must have the same start date, end date and days in session if your district/charter is not set up with track calendars. If the grade groupings do not use the same dates, your funding could be affected. Please contact us if your district/charter will split grade groupings and we will talk about track calendars.

Student Demographics: Please review to ensure that all students are reported accurately by grade and attached to the correct calendar.

ISEE Upload: Once the ISEE data has been uploaded, please review the reports listed above and verify against your student management system for accuracy.

February 15th Payment: The February 15th payment covers attendance and enrollment from the first day of school, through and including the first Friday in November. The deadline for submission is November 15, 2019 and for corrections is December 6, 2019; please submit your data early to give yourself time to verify the ISEE information.

March, May and End of Year submission: Your district/charter may submit corrections to the Attendance and Enrollment Midterm reporting period data with subsequent ISEE uploads to ensure accuracy, however you may lose some unrecoverable funding from other programs and special distributions.

Prior Year Corrections: Districts/charters may request prior year corrections for attendance and enrollment information for up to three (3) years prior. Please fill out and follow the directions on our website under Public School Finance and Other forms.

Reporting Periods:

- Summer School – begins after the last day of regular school and ends prior to the beginning of the next regular school year.
- Midterm Reporting Period – First day of regular school through and including the first Friday in November.
- Full Term – First day of regular school through and including the last day of regular school.
- Best 28 Weeks – First day of regular school through and including the last day of regular school and calculates the Best 28 weeks of attendance.
