PROGRAM OVERVIEW

Advanced Opportunities

The Advanced Opportunities program provides every student attending an Idaho public school an allocation of $4,125 to use in grades 7-12 for certain courses and exams, in which a student may incur a cost.

- **Overload Courses**: An overload course is a high school level course that is taken in excess of 12 credits and outside of the student’s regular school day. These courses are offered online, during the summer, and/or before/after school. In the event that a student incurs a cost for such courses, the Advanced Opportunities program can pay up to $225 for the cost of the course.

- **Dual Credit Tuition**: Students earn dual credit by taking courses that are recorded on both a high school and a college transcript. The program can pay for up to $75 per credit for these courses. Dual credit courses can be taken in a student’s high school, online, by virtual conferencing, or in some cases directly on the college/university campus. More information on specific Idaho colleges and universities can be found in the Links tab on the State Advanced Opportunities website.

- **Exams**: A student can utilize funds to pay for a variety of exams and proctoring fees. Exams include: Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP), college entrance exams and Career & Technical Education (CTE) exams. A full list of qualifying exams and the maximum reimbursement possible is available in the Resource Files on the State Advanced Opportunities website.

- **Workforce Training Courses**: Students may use up to $500 per course ($1000/year) to cover the cost of approved, regionally in-demand workforce training courses or apprenticeships that are not available at their school. These opportunities must be provided by an Idaho public technical college; lead to an industry-recognized certificate, license or degree, and allow high school students to participate.

Remedial or repeated content is ineligible for funding through the Advanced Opportunities program.

Challenging Courses

Many school districts provide options for students to challenge courses for credit. In most cases, this means that a student would request to challenge a course by taking an exam. If the student meets the level of mastery set by the local school board for a given set of standards, the school can grant the student a high school credit without requiring that the student take the course. Local school districts can be contacted for a list of courses eligible for challenge in their districts under Advanced Opportunities.
Early Graduation Scholarship

Early Graduation Scholarships are available for students who graduate at least one full year early from a public high school. These scholarships are equal to 35% of the Average Daily Attendance (ADA) for a given school year. This equates to roughly $1,850. The school district receives the same amount as the student.

Scholarships can be used at Idaho public post-secondary institutions. The award amount will double for students who graduate two years early and will triple for students who graduate three years early. If a student elects not to attend a college or university immediately after high school, they will have to apply within two years of their high school graduation to utilize the scholarship before it expires.

Students must apply for the scholarship through the Advanced Opportunities portal using the student login. Schools must code the students as an early graduate in ISEE, using the appropriate exit codes of 4G, 4H, or 4I, and the postsecondary institution must confirm enrollment before funds will be sent directly to the institutions in the term during which the student begins the postsecondary program.

Funding Information

If a student is taking a course from an Idaho post-secondary institution: the institutions have agreed to wait for a tuition payment, if the student has an approved request submitted in the Advanced Opportunities portal, knowing payment will be arriving at the end of the semester. The state will pay Idaho public institutions directly, other payments will be sent to a school district.

If the student is taking an overload course: the state will pay IDLA directly; all other course providers may require payment up front. The state will pay the district for the approved request at the end of the semester. If the families prepaid the course cost, the district would reimburse the families for courses funded through Advanced Opportunities.

If the student is taking an exam: the exam provider may require prepayment for the exam. Some districts cover this cost, while others have families prepay for the exam. At the end of each semester, the state will send payment for approved exams to the district. If the family prepaid, the district will reimburse the families for exams funded through Advanced Opportunities (up to the limits allowed).

For the Early Graduation Scholarship, funding will be sent directly to the postsecondary institution at the beginning of the term in which the student starts.

End of Fiscal Year

It is critical that all deadlines are met. Idaho Statute 33-4602 requires that all requests be made prior to the end of the fiscal year (June 30th). The system does allow for make-up payments between terms within the school year, however, these requests may only be entered if allowed by course providers.
For missed/corrected prior year funding requests contact the SDE Advanced Opportunities Support Team.

**Advanced Opportunities Portal Timeline 2021-2022**

- **Student funding request opportunity/Data entry window**
- **Verification window for colleges/universities and other course providers-correction of errors per communication between school districts and course**
- **Final review period, no new submissions**
- **Submission of funding request to SDE**
- **SDE approves Data/Estimated Payment Date**
- **Spring Exam submission deadline**
DISTRICT NAVIGATION: SET UP

Staff Accounts and Roles

To gain Advanced Opportunities portal access, a new user will need to create an ISEE account. [https://auth.sde.idaho.gov/Other/Registration/Register](https://auth.sde.idaho.gov/Other/Registration/Register) After creating an account, the superintendent or technology director in each school district can assign these roles via the Administration Application (i.e. Admin Tool) or you can contact SDE Help Desk.

There are four types of district users: **Advanced Ops District Management, Advanced Ops District, Advanced Ops School, and Advanced Ops Business Manager.**

These roles can be found in the Academics Hierarchy of the Admin Tool. For assistance accessing the portal, you can contact the SDE Help Desk at (208) 332-6987.

*Users only need one role consistent with the highest level of access that they need. Do not assign multiple roles to a single account.*

- **Advanced Ops District Management:** This role should be provided to only one person in the school district. District Managers will be responsible for submitting the final data to the State Department at the end of each term.

- **Advanced Ops District:** This role should be provided to a staff member who will be approving and editing registrations submitted by students. This user will have access to district-wide data. This user will have the ability to approve student accounts, funding for courses, allowing or disallowing courses and editing privileges until the point of submission.

- **Advanced Ops School:** This role should be provisioned to a staff member who is overseeing approvals in just one particular school. This person will be able to see student data pertinent only to one school. The user will have the ability to approve student accounts, funding for courses, and editing privileges until the point of submission.

- **Business Manager:** This role should be provided to the district’s business manager. The business manager can review a detailed report of each payment that is made either to the school district or on behalf of the school district.

Application/Submission Windows

Application/submission windows have been set by the state, with input from school districts and the post-secondary dual credit offices. Registration dates for 2020-2021 are:
### Term | Request Funding Window | Verification Deadline | Submission Deadline
--- | --- | --- | ---
Summer 2021 | Apr 5– June 25 | Aug 20 | Aug 27
Fall 2021 Trimester 1 | Apr 5 – Oct 1 | Nov 12 | Nov 19
Spring 2022 | Nov 22 – Mar 4 | May 6 | May 13 (courses) May 20 (exams)
Trimester 2/3 | Nov 22 – Apr 1 | May 6 | May 13 (courses) May 20 (exams)

- **Request Funding Window**: This is the window during which a funding request can be made by students and Advanced Opportunities staff. It is critical that all courses that are expecting funding are entered by the end of this window.

- **Verification Deadline**: During this time, all course providers log into the portal to verify enrollment for all requests made by students. Course providers and schools district will communicate with one another to work through any errors or missing information. District personnel adding or editing requests during this time, should only do so in collaboration with course providers. After course providers have completed this step, they will send out bills to students who are paying for courses out of pocket.

- **Submission Deadline**: After submission, SDE staff will process all funding requests and send back any errors. SDE staff will scan the data for the following: student flags, odd dollar amounts, incorrect course titles, duplicate requests, ineligible course providers, ineligible courses, and make-up payments. If courses are found in these categories, SDE staff will reach out to the school district for clarification or send the request back for further review.

### Home Page
The Home Page in the portal contains vital information for program implementation. This landing contains general information about the Advanced Opportunities program, followed by a table with information about deadlines for the current school year.

The “**District Dashboard**” provides information about courses or exams that require approval or review. There is also a snapshot provided of the number of student accounts that need approval and the number of students with active advising flags. Staff will be able to click on the number for each description that will direct them to the appropriate webpage in the portal requiring the attention of
the AO staff member. Please note, that the current year information will populate, if no information is available for the current year, it is likely a prior year has data that needs to be addressed. Select “All Years” from the School Year drop-down menu.

District Dashboard:

By scrolling to the bottom of the page, links to essential contacts are provided.

For questions regarding the use of the portal, contact your regional support specialist. Contact information is available for the following individuals: dual credit staff, overload course providers, and early graduation scholarship coordinators.

School Terms

Schools have been pre-populated to function on a trimester/semester schedule. If the schedule setting in a particular school changes, the District Manager can change this by selecting “School Terms” under the “System Management” tab.

Users can toggle between terms by clicking on the individual “Term Type,” change between semesters and trimesters, and then select “Save Changes.”
Course Assignment

Before students can log into and request for state funding, each school will need to set up a list of courses that are available to students. This will determine what students will see when requesting funds for a course. This will need to be done for each school separately by the District Manager. To do this, hover over the “System Management” tab and select “Course Assignment”:

Select the appropriate information and click “Populate Grid.”

The following grid will appear.

In the grid, select “Allow” for the term during which the course will be available at the school. This will allow students to register for only the courses that your school offers. Courses from all post-secondary institutions are defaulted to “Disallow.”
If a certain course does not appear in the list, please contact the dual credit coordinator at the post-secondary institution. The colleges and universities maintain these lists. If the field appears to be grayed out this means the provider has not made the course allowable for the term. In this case, please contact the provider to discuss the modification of terms for a given course.

After saving changes, these courses will be available for student registration.

Search for specific courses by using the filter function in the grid or alphabetize the names by clicking on the column header.

Special Cases

High school courses available from Idaho Digital Learning Alliance and BYU-Independent Study do not need to be populated through this process. Courses by this provider are made available to all students by default. Workforce Training Courses also do not need to be populated.

Course Management

Many school districts offer in-district overload courses. These are overload courses that are taught by in-district teachers. In most cases, this comes in the form of advanced summer school, zero hour, or an
after-school class. School districts can create a cost for this “extra” course, and Advanced Opportunities funds can be used to pay up to $225 per course.

To create a course catalog for such courses, go to the “System Management” tab and select “Course Management.”

Select the relevant school year and click “Show Courses.”

When the table comes up, select “Add New Record.”

Enter the course name, course cost, and identify whether the course will be available during the summer, fall, and/or spring, by selecting “Allow” or “Disallow.”

Then click “Save Changes.”

To delete a course that is no longer offered by the school district, select “Delete” in the table. Then click “Save Changes.”
The courses will now need to be “assigned” to each school in order to populate in the student and staff drop down menus. For instructions on how to assign courses, see “Course Assignments”.

*If a student is taking a dual credit course from a provider outside of the common AO providers, students can select either “Other” in the funding request or if the course is more commonly used, the course should be added to the school districts course catalog offerings by using the Course Management tool mentioned above.*

**DISTRICT NAVIGATION: STUDENT ACCOUNTS**

Approving Student Accounts

*Note: Schools have the option of entering the student data themselves or allowing their students to do so. The SDE recommends having the students apply for funding themselves whenever possible. The following steps are for schools that allow students to enter requests into the portal and apply for Advanced Opportunities monies independently. If school districts would rather manage all registrations from a district level without giving students the ability to navigate the system, please see “Funding Request Generated by School/District Users”.*

When students create an account in the Advanced Opportunities Portal, the district Advanced Opportunities Designee must verify it before students can apply for state aid. To approve student accounts, select “New Students” under the “Students” tab.

This will generate a list of students who have requested to have an Advanced Opportunities account.

Check that the year in which the student applied for an account is selected, also, you may select “Show Denied Students” if needed.
Select the **student’s name** to see his/her account details.

<table>
<thead>
<tr>
<th>Student</th>
<th>Edu ID</th>
<th>Birth Date</th>
<th>Email</th>
<th>Login Request Date</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>10/10/2018</td>
<td></td>
<td></td>
<td>Pending</td>
</tr>
<tr>
<td></td>
<td></td>
<td>12/17/2018</td>
<td></td>
<td></td>
<td>Pending</td>
</tr>
</tbody>
</table>

To verify the account, enter/verify the student’s EDUID.

*This step is critical to the process, entering a student’s EDUID incorrectly may impact the funding available to another student.*

By approving a student’s account, districts are verifying that the student attends an Idaho public school. This step allows students to access the system. Students will not be directly tied to a district’s specific school for further registration and will be able to make a funding request at any school. *Note: This may be important if a student is attending public schools for funding requests.*

<table>
<thead>
<tr>
<th>EduID:</th>
<th>First Name:</th>
<th>Middle Initial:</th>
<th>Family Name:</th>
<th>Gender:</th>
<th>Birth Date:</th>
<th>Email:</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td>Male</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

When a student’s enrollment has been approved, the following message will appear:
If the student has registered for an account, but the entry does not yet appear in your list, the student must check their email and follow the link to verify the account. If the district denies a student account, it will still appear in the district’s list, but the status will simply be changed to “denied”. If the student needs to have the verification email resent, have the student login, select “Can’t Log in?” and have the verification email resent.

Participation Form
Students must have a Participation Form on file with the school district. These forms are available at the Advanced Opportunities website (http://www.sde.idaho.gov/student-engagement/advanced-ops/index.html); additionally, they appear in a link on the student login page. Participation forms only need to be signed by the students and their families once. They must be kept on file at the local school district. District staff will be asked for verification that this form is on file before submitting any funding requests to the state.

View Student Account Status

New: Designees now have access to increased information about the status of student accounts.

This screen allows designees to track the status of the student account. From here, the designee can troubleshoot potential account errors: duplicate accounts, lack of verification, etc. Pay careful attention to the “Notes About Student Accounts” on this page, as it will walk you through the troubleshooting process. An account

The email address used and whether the student verified the account are largely the problem when students are unable to access accounts, you will want to check those details first.
Student Lookup Feature

The student lookup feature enables Advanced Opportunities Designee to view the status and account details of a student. You can navigate to a student’s profile by clicking on the EDUID from any table, or by selecting the “Students” tab and clicking on “Student Lookup.” After entering the pertinent information, you will see the student profile.

</table>

- **Student Account status**: This field indicates whether or not a student has created an account.
- **Student verified**: This field indicates whether or not the student has verified the account in their email link.
- **District verified**: This field indicates whether or not the district Advanced Opportunities Designee has verified the student’s account with an EDUID.

Reset Student Password

If a student forgot his/her password, it can be reset from the student log in interface by selecting “Can’t Log In?” The student will have the option to reset the password. Advanced Opportunities Designees can also reset a password by selecting “Students” and selecting “Reset Student Password.” A gibberish password will be sent to the student’s email. Upon logging in with the gibberish password, the student can reset their password in their profile.
Student Cannot Access Old Account

In rare instances students might not have access to an old email address under which their account was created. In this situation, you can look up the students account in the “Students” tab and select “Student Lookup.” By clicking disable, the student’s previous account will be disabled, and the student can create a new account. Upon EDUID verification, the student’s previous activity will merge with the new account.

**DISTRICT NAVIGATION: MANAGING FUNDING REQUESTS**

Approving Funding Requests Entered by Students

The district Advanced Opportunities designee will need to approve or deny all course and exam requests submitted by students. The student’s accounts will not be charged until this approval occurs. To approve submissions, select “Funding Requests,” then “Approve,” then “Approve Course Funding.”

Select the school year to view. Each course/exam will need to be approved individually. Click on the course/exam name to see and edit the details of the funding request.
Look over course/exam information carefully. Make any necessary corrections. Use the drop-down menu in the Status field to determine if the request will be approved or denied. Then select “Save Changes.” If the course/exam is denied, enter the reason for this decision.

New: Once the “I verify that the student has a participation form on file with our school district” has been check by either the school or student in the application, the box will remain checked for further funding requests for the student.

Remedial and Repeated Coursework
Advanced Opportunities may not be used for remedial or repeated courses or exams. Make sure that students are aware that any additional expense is the responsibility of the student.

Funding Requests Generated by School/District Users
To request Advanced Opportunities funding on behalf of a student, select “Request” then “Request Course Funding” or “Request Exam Funding” option under the “Funding Requests” tab.

Fill out the pertinent information related to the course or exam. Records entered by the Advanced Opportunities Designee will not be subject to additional approval by the District. Please use the
student’s legal name. If the EDUID does not match the name uploaded to the office ISEE records, an error message will appear.

**Reminder:** *Use the drop-down menu to populate courses.* See [Course Assignments](#) for instructions on how to populate the drop-down menu. Using pre-populated course information increases speed and accuracy in entering courses and is required. If a course is not available for a funding request from an Idaho institution, look to the Course Assignment tab to see if it is allowed. *Only if a student takes a class from an accredited post-secondary institution from outside of common AO providers should the Advanced Opportunities Designee enter the course using the “Other” option in the funding request.* Be sure to use standard course title formatting (Course Code - Course Number - Course Name; ENGL 101 English Composition). Any entry that is not formatted in this way may be denied at the state level, resulting in a delayed or denied payment.

**Look over course/exam information carefully.** Make any necessary corrections; verify that the student’s participation form is on file, then click “Submit Exam/Course.” The district Advanced Opportunities Designee will receive a message confirming the approval.

**New:** Statute allows for the payment of exam proctoring fees. The exam application for students and district users will provide an option for adding proctoring fees to the total exam cost. Designees will click the box next to “Has Proctoring Fees” to initiate a drop-down menu for inputting the cost information. Select the exam center and the proctoring fee amount. The reimbursement request should be a combination of the proctoring fee and exam cost.

**New:** College Entrance Exams have been added to the list of eligible exams on the exam application.
Editing Process

For district Advanced Opportunities designees, courses and exams will appear in “Funding Requests” tab under “Submit” then “Submit Course/Exam Funding.”

The user will see courses and exams that have been approved and charged to the student’s account. These courses/exams can be edited as needed until the District Manager submits data to the SDE. If data must be edited after the student access window has closed, the Advanced Opportunities Designee must communicate with the course providers about any changes. **If the field needing correction is not editable in the system, you will need to deny the funding request completely and re-enter correctly as a new request.**

It is expected that the data submitted to the SDE is true and accurate. Please be diligent in double-checking to make sure all records are correct. If data must be corrected after the submission, please contact the SDE directly to make such corrections. This should only happen in extreme situations. It is expected that all data is corrected before submitting to the SDE.

Mass Upload Course Requests

For districts who have gone through in-person portal training, the upload feature will be enabled for the school district. To access it, click on the “Upload” tab and select “Upload Course/Exam Funding Requests.”

Download the course/exam upload templates and column format mappings document. You will also need to reference the “All Courses” or “All Exams” document on the View Template Mapping page.
These documents will have the necessary information to fill out the template for mass upload below. The following information is required:

- **SchoolYear:**
  - Type in the end year of the applicable school year, for example for the 2020-2021 school year enter “2021”

- **DistrictID:**
  - Type in the district’s 3-digit identification number, such as “131”

- **SchoolID:**
  - Each building has a school identification number, such as “52”

- **Term:**
  - Enter Fall, Spring, Summer, Trimester 1, Trimester 2, or Trimester 3

- **EduID:**
  - Type in the student’s education identification number.

- **GivenName:**
  - Type in the student’s legal first name

- **FamilyName:**
  - Type in the student’s legal last name

- **Grade:**
  - Enter the student’s grade level

- **ProviderID:**
  - Enter a number that indicated the Provider Identification number, choose from the following list.

<table>
<thead>
<tr>
<th>ProviderID</th>
<th>Represents</th>
<th>ProviderID</th>
<th>Represents</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>
• **Request:**
  o Enter the amount of funds being requested for the course, such as "225"

• **ParticipationFiled:**
  o Enter whether or not the student has a participation form on file “Y” for Yes, and “N” for No

• **OtherProvider:**
  o If you entered 1458 in AdvOpCourseID (column J), type in the name of the course provider. If you entered any other course code, leave this field blank

• **OtherCourse:**
  o If you entered 1458 in AdvOpCourseID (column J), type in the name of the course. If you entered any other course code, leave this field blank

• **CourseType:**
  o Indicate the type of course you are entering: “Dual Credit”, “Overload”, or “Workforce Training”.

• **InstitutionCourseID:**
  o Please view “All Courses” document for reference.

• **CIP:**
  o This code is used for Workforce Training courses only.

• **Notes:**
  o If there are any special circumstances regarding this course, enter notes here. If notes are not required, you may leave this field blank

*To ensure a timely upload please keep each .CSV upload to 150 or less student funding requests.*

When finished, save the file in **.CSV format**. This format preserves data for the upload to the system.

Return to the portal, and select **Upload Course/Exam Funding** and select **Choose File.** Locate the file on your computer and select **Upload Course/Exam Funding Request.**
The system will populate a table called “Upload Course Results.” The **Processed Records** shows the number of records reviewed by the system and the number of **Successful Records** shows whether or not the system has accepted the record. If there is an error the number of **Successful Records** will not match the **Total Records**. Each row that has an error will be identified in the table. Each error will need to be corrected and the file can be uploaded again.

<table>
<thead>
<tr>
<th>Row Number</th>
<th>EduID Verified</th>
<th>Success</th>
<th>Error</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>true</td>
<td>false</td>
<td>Verify that the providerID is correct;</td>
</tr>
<tr>
<td>3</td>
<td>true</td>
<td>false</td>
<td>Verify that the providerID is correct;</td>
</tr>
<tr>
<td>4</td>
<td>true</td>
<td>false</td>
<td>Verify that the providerID is correct;</td>
</tr>
<tr>
<td>5</td>
<td>true</td>
<td>false</td>
<td>Verify that the providerID is correct;</td>
</tr>
</tbody>
</table>

**Successful Records** need to match **Total Records** in the upload. If this does not occur click on “Upload History”, click “Course Reimbursement Upload” or “Exam Reimbursement Upload” link and view the error details. The table will provide the row number corresponding to the row in the upload file and the error that needs to be corrected. *If an error occurred and then is corrected the entire document data will need to be re uploaded and tried again as any upload document with an error does not upload any funding requests.*

**New for 2021/2022:** After the upload is complete, the courses will be automatically be approved and added to the “Submit Course Funding” or “Submit Exam Funding” pages. These will no longer need to be approved by the portal user.

Use the check boxes to approve multiple courses at once.
Needs Review Status

Courses that need to be edited or reviewed are placed into a special status called “Needs Review” or “Clarification Requested.” This can be done by any user who has access to the student data. To review courses in this status, click on “Funding Requests” and select “Review” then “Review Course/Exam Funding.”

To view the details of the course, click on the **Course or Exam Name**. On the right-hand side, there will a progress table that indicates any changes and comments related to this request. Read the notes to diagnose the issue and make appropriate changes. Many fields in this view are editable. Corrections can be made, and the course can be approved again. If the field that requires correction is not editable, please deny the course and re-enter correctly.

Communicate with Course Providers

District Managers will need to verify that the course provider has confirmed that the student is taking the course before the “Submit Courses to SDE” button will turn red, indicating that the school district has a 100% match with the course providers. To quickly identify discrepancies, the District Manager can use “Enrollment Match,” found under “Funding Requests” and “Submit.”
A report will be generated in which users can see where data is not yet at a 100% match with the course providers.

<table>
<thead>
<tr>
<th>School Year</th>
<th>College</th>
<th>Term</th>
<th>Number of Course Funding Requests</th>
<th>Number of Matched Enrollments</th>
<th>Needing Review</th>
<th>Enrollment Match</th>
</tr>
</thead>
<tbody>
<tr>
<td>2019-2020</td>
<td>Boise State University</td>
<td>Fall</td>
<td>5</td>
<td>0</td>
<td>0</td>
<td>0 %</td>
</tr>
<tr>
<td>2019-2020</td>
<td>Boise State University</td>
<td>Spring</td>
<td>2</td>
<td>0</td>
<td>0</td>
<td>0 %</td>
</tr>
<tr>
<td>2019-2020</td>
<td>Boise State University</td>
<td>Summer</td>
<td>3</td>
<td>0</td>
<td>0</td>
<td>0 %</td>
</tr>
</tbody>
</table>

To identify specific student issues, the District Manager can download the CSV File from the “Submit Course Funding” report under “Funding Requests” and “Submit.” The “Provider Enrollment” column in the spreadsheet will indicate whether or not the student’s enrollment has been verified by the college (“true”=verified, “false”=not verified).

Contact the course provider to clear up any discrepancies. The submission link will not be live until 100% of the records have been verified by the provider. Provider contact information can be found on the A.O. website.

**DISTRICT NAVIGATION: SUBMISSION TO THE STATE DEPARTMENT OF EDUCATION**

**District Managers**

Once the data has been successfully entered into the Advanced Opportunities Portal and is ready to be submitted to the SDE for payment, District Managers will want to ensure that their data is processed correctly.
Review Data

All courses and exams that have been approved by Advanced Opportunities Designees will now appear in a final list to submit to the SDE. Courses and exams must be submitted separately. This feature is only available for the District Manager. Select the year and term to submit. *Note: Only one year can be submitted at a time.*

The district manager must double check records before submitting the final request. To review at the details of each submission, select the course name. By selecting “Export CSV” this may allow for a quicker review of the information.
District Managers can still make crucial edits to the courses by clicking on the course name. Please make sure to double-check the APPROVED AMOUNT and the COUNTY OF RESIDENCE.

Export Data to CSV
This function will generate a report to an excel spreadsheet, please save a final report for district records. As soon as data is submitted to the SDE, it will no longer be editable by the district.

New: Export to CSV will provide student account balances.

Submit Data to the Idaho State Department of Education
When 100% of the data has been matched by the providers, the button in the lower left-hand corner of the “Submit Courses Reimbursement” report will turn red. Click to submit to the SDE. Only one year at a time can be submitted, by selecting “All Years” you will not submit funding request, as this may reference courses/exams that are no longer allowable. For prior year courses/exams select the appropriate year.

Plan to submit this information earlier than the deadline. If submissions are late, the SDE will not be able to pay the post-secondary institutions in a timely manner. This may result in late fees for your students.

Submission
Submissions are due to the SDE on or before the following dates:
### DISTRICT NAVIGATION: OTHER FEATURES

**Billing Statements**

After the SDE makes payment to the providers and districts, a receipt will be placed in the “View Statements” section of the “Reports” tab. This will indicate completion of payment.

Billing statements are useful if a question about when a payment was made arises. To find specific details, follow the drop-down arrows:
Early Graduation Scholarship

Students who graduate at least a full year early from an Idaho public school are eligible for an early graduation scholarship. These scholarships are equal to 35% of the Average Daily Attendance (ADA) for a given school year. This equates to roughly $1,830.

Scholarships can be used at Idaho public post-secondary institutions. The award amount will double for students who graduate two years early and will triple for students who graduate three years early. If a student elects not to attend an Idaho college or university immediately after high school, they will have **up to two years** to apply for the scholarship before it expires.

To apply for this scholarship, students must login through a student user account and request this scholarship. The student request will then show under **“Reports”** then **“EGS Student Applications.”**

On this report, the district will be able to see which students have been coded in ISEE as an early graduate. **If a student is missing from this list please contact the district ISEE coordinator to review the exit code used for the student.** Students will have an exit code in ISEE of 4G (one year early), 4H (two years early), or 4I (three years early). This data will be matched with the student funding requests. If the data matches, the funds will be sent directly to the Idaho post-secondary institution at the beginning of the semester the student plans to enroll. If the “**Enrolled**” column is false this means the
student is not enrolled or has yet to be verified by the college. The student should contact the college to have this verified.

## Student Flags

Student flags are a communication mechanism between the school, district, course provider, and SDE that ensures certain accounts receive extra monitoring.

![Green flag](image)

Green flags indicate a normal status of a student’s A.O. account.

## Unsuccessful Attempt Flag

![Red flag](image)

Once a flag is entered, the circle at the end of a student record will appear red. Flags may be entered by the district, the course provider, or the SDE. It is important to remember that students can also view the flags.

When a student fails to earn credit for a class, either due to withdrawal, failing grade, or non-completion, a flag must be entered on the student account. This allows all participants to know that the student must pay for the next “like” course or exam (the same type—overload, dual credit, exam, or workforce training).

To enter a flag, go to the individual student account. This can be accessed through the “**Student Lookup Tool**” or by going to “**View Courses**” and searching through entered courses; clicking on the
blue EDUID link of the student who requires a flag. Clicking on the hyperlink will take the user to the individual student record.

Student Flags

Student flags alert district users and course providers with notification related to the student's entire account. Student flags will pop up upon processing activity related to this student. Enter flags only when they affect the entire account (i.e., funds frozen due to failing grade). For comments or entries related to a specific course/exam, use the "comments" section in the course details.

Once in the student profile, “Student Flags” will appear at the top of the record. To add a flag, click on “Add a new record.” Enter specific details, as a student may have more than one flag in place at a time. Select the following: reason, type, course name failed, and notes.

- Reason: specify the reason the flag is being entered (Failed, Withdrew or Other)
- Type: specify the course type (overload, workforce training, dual credit or exam type)
- Course/Exam Name: enter the course name (e.g. Math 123 Math in the Modern Society or Electrical Apprenticeship 1A)
- Notes: Please add any additional notes that would help others reviewing the flag to understand details (e.g. cost of the course, term, number of credits)

Example: “Failed, Workforce Training, Nursing Assistant, $500 used in FA 2020”

Select “Update” to add the flag. The flag is editable.

To clear a flag, an Advanced Opportunities Designee must go to the student profile and select “Clear Flag.” The flag will show the user who cleared it and the date it was cleared. The flag should only be cleared once the student has fulfilled the terms of the flag (e.g. paying for the next like course). It will remain as part of the student’s record.
Advising Flag

Students who have accessed Advanced Opportunities funds for 15 or more credits must receive postsecondary advising informing them how their courses will translate into a degree, certificate or following their student plan. Students requiring advising will have a yellow circle in their funding request record. District Managers cannot submit data for SDE processing with yellow flags present.

To locate students who need advising click “Reports” and “View All Courses”. Students can be filtered by typing “Y” into the filter for “yellow” on the flagged column. To view all students needing advising select “All Years” for the school year.

When the student has received advising, the yellow circle can be removed by going into the student’s profile and checking the box labeled “Student Received Advising” or by clearing the advising flag.

Low funds warning Flag
When a student has $500 or less of available funds in their account, a purple flag will automatically alert students and Advanced Opportunities Designees. This will post to the student account so eligibility status can be seen by both student and Advanced Opportunities designee in the funding request report page when choosing courses/exams. Once a student has an approved expenditure “School Level Approval Received” the funding will be accounted for in the students total available funding.

Utilization Report

School personnel may view a program utilization report; each user has the same level of transparency as fits their user role. District Users may see district wide information and school level users may see school level data. This report may be accessed under “Reports”; once there, select “Utilization.”

![Utilization Report](image)

This report will show an aggregate breakdown of students, credits, exams and total dollars paid by each school in the district.

**STUDENT NAVIGATION**

Creating a Student Account

From the Advanced Opportunities site ([http://www.sde.idaho.gov/student-engagement/advanced-ops](http://www.sde.idaho.gov/student-engagement/advanced-ops)) the student will select the blue “Student Application Portal” link.
The student will click “**Create an Account**” in the top right-hand corner.

The student will register for an account using a valid email address.
An email will be sent to the student to verify the account. The student will need to select the ‘verify’ link to proceed. This email is sent instantly; if the student does not get it within minutes of applying, the student should check the email spam folder or confirm a valid email address was used.

Upon verification by the student, a district Advanced Opportunities Designee will approve the account. This step may take a bit of time, as it is done manually by the school district. Once approved, the student will be able to apply for funding for courses/exams.

After district Advanced Opportunities Designee has approved the account, the student can log into the portal with the username and password that the student set up.

The student can now apply for funding for courses and/or exams.

Incorrect Account Information
If a student created an account but selected the wrong school, or entered any of their information inaccurately, the student may log into the account and correct this information in the profile.

Missing Verification Email / Reset Password
If the student is missing the verification email or needs to reset the password, the student should login to the website and select the “Can’t Log In?” link.
The student may then choose to have the verification email resent or to reset the password.

If a student receives the following error message, it is possible that when creating the account an error was made (e.g. wrong email address).

"Resending the verification email failed. Please make sure the email address is correct, and belongs to an existing account. Note that already-verified accounts cannot be re-verified."

In this case, a student should re-create the account with the correct email address.

**Student Generated Funding Request**

Once the student has logged into the account, a funding request can be made.

The student needs to be sure that a **Participation Form** is on file with the Advanced Opportunities designee. The district must have this on file in order to approve the student for any Advanced Opportunities funding. The form can be found under the “Forms” tab in the student portal.
Once the form is on file, the student is ready to request funding. Select “Request Funding” and then choose the application type.

The student will enter the course/exam information, using the pre-populated drop-down course or exam menu.

If the desired course or exam is not available, the student should contact the district Advanced Opportunities Designee to ensure that that course or exam is eligible. A class may need to be added to the drop-down menu through the “Course Assignments” feature.

*If the student is taking a course from an out-of-state provider or is taking an atypical class, the request will need to be entered by the Advanced Opportunities Designee as an “other” option.*

Once the request has been submitted, the student will receive a notice indicating that a request for Advanced Opportunities to pay for a course or exam has been completed.
Early Graduation Scholarship Application

Students who graduate at least a full year early are eligible for an Early Graduation Scholarship. To apply for this scholarship, students must login to their Advanced Opportunities account. In the bar at the top of the webpage, the student will select “Apply for Early Graduation Scholarship.”

Once the student has opened this form, the student information will auto-populate. The student will need to complete the remaining information needed. The student will submit the application. This request will be visible by the student’s district, which will need to be entered and submitted to the SDE via ISEE.
The student may track the scholarship progress via their Advanced Opportunities account. Students are encouraged to communicate with their Advanced Opportunities Designee to confirm eligibility for this scholarship.

Email Notifications
Students will receive email notifications whenever the status of the submission changes. This includes denial, approval, and payment status.

Student Account Management
The student will be able to manage their account in the portal. Reports of prior course submissions and programs totals may be found under the “Reports” tab in the student login.

If a student wants to see prior requests for courses or exams click on the “Course Submissions” or “Exam Submissions” reports. This will show the student’s applications and current status (pending, approved/denied, or paid).
Students may view their overall use of the program under “Program Totals.” Students and parents may want to use this tab to monitor their overall program balance.

Students may also monitor their flag status through their account. Student accounts may have a red flag added when they fail to earn credit for a course or exam. In order to access future funding, the student must pay for a “like” course or exam. A purple flag will be added when student has $500 or less of money left in account.

Student flags details can be accessed in two places, click on “View Flags”.
HELP

The Help feature in the A.O. portal provides a means to communicate information with the Idaho State Department of Education in a secure manner through the Online Tool for IT support (OTIS). Please do not send any personally identifiable information (PII) via email, the SDE will be unable to respond.

From the help page follow the on-screen directions:
1. Click: “Go to OTIS”.
2. Submit a ticket by selecting “Create A Ticket”.
3. Select “Web App (apps.idaho.sde.gov)” as the primary ticket type.
4. Select the Issue (most common are Data Fix or Use Inquiry).
5. Select “Advanced Opportunities” in the category.

Input information in the description and add any attachments. Please avoid using PII in the summary.

Thank you for your dedication to Idaho students!
The State Department of Education appreciates all the efforts put in by school district personnel to ensure that Idaho students are able to benefit from the Advanced Opportunities program. Additionally, we are committed to ensuring effective implementation of these programs. If you have any questions, suggestions, or comments, please feel free to contact the Advanced Opportunities Support Team.
