The Idaho Lives Project is pleased to bring back suicide prevention, assessment and treatment expert, M. David Rudd, PhD, to provide his suicide assessment and treatment training. The training will include lecture, clinical demonstrations, case examples and Q&A. Dr. Rudd will provide training specific to behavioral health providers, health care professionals and college students in social work, psychology and medical fields of study. Dr. Rudd will present three virtual, 6-hour trainings. The primary goal of this workshop is to provide the participant with the essential tools needed to accurately assess suicide risk, manage challenging scenarios and provide treatment in an effective fashion.

FREE 6-hour Training  *  FREE CE’s available  *  Registration Required
Social work, psychology, medical students and school counselors welcome

Registration is open February 25 through March 26, 2021 at midnight MDT
Register at https://ilp_rudd2021.eventbrite.com

State of Idaho and CDC Covid-19 precautions require this training be provided virtually.
Links to participate will be provided to all registered attendees the day prior to their training date.

Thursday, April 8, 2021 9:00 – 3:30 MDT
Friday, April 9, 2021 9:00 – 3:30 MDT
Times include morning and afternoon breaks and 30-minute lunch break

M. David Rudd, PhD is President of the University of Memphis. He also continues his affiliation with the National Center for Veterans Studies at the University of Utah, as co-founder and scientific director. Prior to moving to Memphis, he was dean of the College of Social & Behavioral Science at the University of Utah. He is a member of the Institute of Medicine (National Academies of Science) committee for the Assessment of Resiliency and Prevention Programs for Mental and Behavioral Health in Service Members and their Families. His undergraduate degree is from Princeton University. He completed his doctoral training at the University of Texas-Austin and completed a post-doctoral fellowship in cognitive therapy at the Beck Institute in Philadelphia under the direction of Aaron T. Beck. He is a Diplomate of the American Board of Professional Psychology and a Fellow of three professional societies, including the American Psychological Association (Division 12 and Division 29), the International Association of Suicide Research, and the Academy of Cognitive Therapy (a founding fellow). He is a Distinguished Practitioner and Scholar of the National Academies of Practice in Psychology. In addition to his clinical work, Dr. Rudd is an active researcher with approximately 200 publications. He completed a $1.97 million clinical trial for suicidal soldiers at Fort Carson, Colorado, and is involved in a second trial funded at over $1 million. Over the years, he has been involved in over $18 million of funded research as either a PI or Co-PI. He has authored several books, including Brief Cognitive Behavioral Therapy for Suicide Prevention (2018 with Criag Bryan, The Guildford Press), Treating Suicidal Behavior (2001, The Guilford Press, 2nd printing in 2004) and Suicide Science: Expanding the Boundaries (2001, Kluwer Academic Publishers), The Assessment and Management of Suicidality: A Pocket Guide (2006, Professional Resource Press) The Interpersonal Theory of Suicide (2009, with Joiner, VanOrden, & Witte, American Psychological Association Press), and Managing Suicide Risk in Primary Care (2011, with Craig Bryan, Springer Publishing Company). His research has been recognized with both national and international awards. He has served as a consultant to many organizations nationally and internationally, including the United States Air Force, the U.S. Army, the Department of Defense and the Beijing Suicide Prevention and Research Center.
