REQUIREMENTS AND REQUEST FOR SCHOOL DISTRICT AND CHARTER SCHOOL ACCESS

IDAHO STATE DEPARTMENT OF EDUCATION DATA SYSTEM APPLICATIONS

In compliance with the Family Educational Rights and Privacy Act (FERPA), the Statewide Longitudinal Data System (SLDS) shields unauthorized users from accessing data that is made available by various Idaho State Department of Education (SDE) software applications.

To ensure proper security measures for access to SDE applications, the SDE requires that each School District Superintendent and Charter School Administrator complete, sign and submit to the SDE, a Certification of Identity and Acknowledgment of Status as User Authorization Authority. Access to SDE applications by users authorized by the school district or charter school is contingent upon the submission of this required form. The completed form should be emailed to the SDE’s IT Support Desk at support@sde.idaho.gov, by the Superintendent or Charter School Administrator. The original version of the completed and signed form must be mailed within fourteen calendar days of the email to:

Idaho State Department of Education

650 West State Street, Suite 343

Boise, ID 83720.

Each School District Superintendent and Charter School Administrator is responsible for granting access for the district’s or charter school’s users to SDE applications, ensuring that each user has a legitimate “educational interest” in the student and the student’s data to which access is being granted, and for ensuring that any re-disclosures of information by such users comply with all applicable state and federal statutes and regulations.

Each School District Superintendent and Charter School Administrator is also responsible for ensuring the district’s or charter school’s users accessing or making use of the Electronic Forms and Rubrics for Enhancing Professional Practice: A Framework for Teaching through SDE applications comply with the Downloadable Product License between the SDE and the Association for Supervision and Curriculum Development (ASCD). See [link to ASCD license agreement]. In addition, each School District Superintendent and Charter School Administrator acknowledges that ASDC is a third-party beneficiary to the agreement between the district or charter school and the SDE represented by the terms of this form.

By completing the sections below, District Superintendents and Charter School Administrators acknowledge their understanding of the conditions regarding data access and establishing of authorized delegates for the
District/Charter management of data access through SDE applications.

Penalties, including but not limited to, data system access denial, may be imposed for the failure to act in a manner that is in accordance with the conditions above. Sharing of user account information (i.e. usernames and passwords) by an authorized individual to others is prohibited.
